LTD.**

Map showing the positions of Messrs. Veitch's Nurseries

Iris growing by the water side

INTRODUCTION.

Size and Quality

In comparing prices we respectfully invite customers to compare also the **size** and **quality** of the plants supplied.

Our prices are for **strong** plants, which will give **good** results.

Specimen clumps of many kinds can be supplied at extra cost.

Visitors

We are always glad when customers are able to visit the Nurseries and satisfy themselves as to the **quality of our Stock**. There is no obligation to purchase unless visitors desire to do so.

Langley

In addition to the **Herbaceous** and **Alpine** plants the Langley Nursery is well worth visiting in the Summer for the **Roses** and **Fruit Trees**, as well as the **beautiful beds of Annuals**, so conspicuous from the Great Western Main Line.

Position of Nursery

The Langley New Town entrance is one mile from Slough Station, G.W.R., just off the Uxbridge Road, turning North from the Great Bath Road, the London side of Slough: (See map overleaf.)

Advice

We shall always be glad to select varieties, if customers do not desire to make their own selection, and to advise on the treatment of Herbaceous Borders, Rock Gardens, etc., on receiving particulars of size, soil and situation.

Dozen Prices

Unless otherwise stated plants quoted in this Catalogue at 6d. each are 5/- dozen

9d.	„	7/6	„
1/-	„	10/6	„
1/3	„	12/-	„
1/6	„	15/-	„

Not less than 6 plants supplied at the dozen price.

Special quotations for quantities on application.

Dormant Roots

Plants marked thus * can be supplied from October to January in a dry state at lower prices. (See Bulb Catalogue.)

Abbreviations

R = Rock plants	
F.C.C. = First Class Certificate	} R.H.S.
A.M. = Award of Merit.	

Cash Discount

Unless a special nett quotation has been given, Invoices over 20/- are subject to 5% for cash in one month.

Gratis Plants

Whenever the order permits it, **gratis plants** will be added, to help towards the cost of carriage.

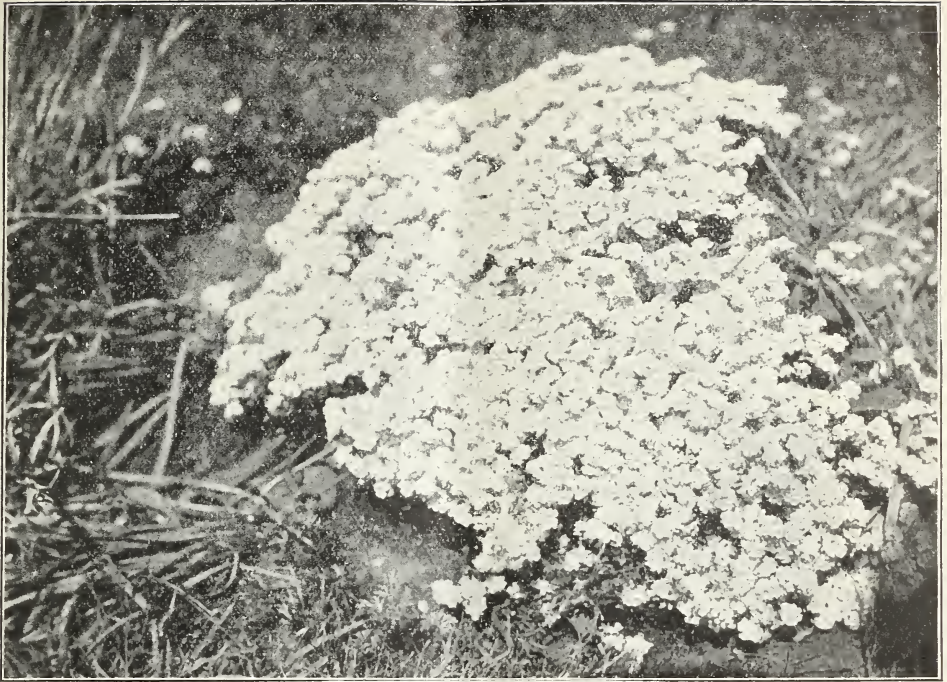

JAMES VEITCH & SONS,
LTD.

HARDY HERBACEOUS PERENNIALS AND ALPINE PLANTS.

GENERAL COLLECTION.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each
R	Acæna Buchananii , dense masses of blue-green foliage, reddish flowers	6—8	3	6d.
R	inermis , light green leaves on trailing stems, attractive	6—8	6	6d.
R	Novæ-Zelandiæ , a trailing plant with small grey leaves and whitish flowers	7—8	2	6d.
R	ovalifolia , more robust than the preceding	5—8	6	6d.
R	Acantholimon glumaceum (<i>Statice Araratii</i>), dark spiny foliage and rose-pink flowers	6—9	9	6d.
R	venustum , glaucous foliage, larger flower spikes than <i>A. glumaceum</i> , a rare species. F.C.C.	6—8	6	2/6
	Acanthus candelabrum , purple and white, very strong grower	7—9	2 6	6d.
	mollis latifolius , flower spike tall and handsome; a noble plant, forming effective masses	7—9	2 6	6d.
	Perringii , see list of Specialities.			
	spinosus , the spiny-leaved species, beautiful glossy green foliage, and tall spikes of pale lilac flowers	7—9	2 6	9d.
	Achillea ægyptiaca (<i>taygetea</i>), golden yellow flowers, handsome silvery foliage	6—9	1 6	9d.
	alpina , flowers pure white, a first-class plant	7	2	9d.
R	argentea (<i>Tanacetum argenteum</i>), silvery foliage, flowers white	6—7	3	6d.
	buglossis (<i>lingulata</i>), large white flowers	6	1 6	9d.
R	Clavennæ , flowers white, plant dwarf, with heavy jagged foliage	6—8	1	9d.
	Eupatorium (<i>filipendulina</i>), large heads of handsome golden yellow flowers	7—10	4 6	9d.
	Millefolium rubrum , flowers red, produced in great profusion; one of the best	5—8	1 9	6d.
	Cerise Queen , bright cerise and cherry-red in colour, strong grower	6—8	1 9	9d.
	Ptarmica , " The Pearl ," numerous and dense masses of large double white flowers	7—9	2 6	6d.
R	rupestris , a dwarf species with umbels of pure white flowers	4—6	3	6d.
	serrata fl. pl. , semi-double, pure white flowers, leaves deeply cut, white and hairy	8—10	2 3	6d.
R	tomentosa , profuse masses of yellow flowers; neat and dwarf creeping habit	5—8	9	6d.
R	umbellata , leaves covered with silvery-white hairs, dwarf and effective, flowers white	7—9	6	9d.
	Aconitum Anthora , large yellow flowers	7—8	2	9d.
	autumnale (<i>Fischeri</i>), blue; valuable for autumn flowering	8—10	3	6d.
	Hemsleyanum , see list of Specialities.			
	japonicum , numerous helmet-shaped intense blue flowers	7—9	5	6d.
	Napellus , the common Monkshood, dark blue flowers in large terminal spikes	6—8	4	6d.
	album , the white variety	6—8	4	6d.
	bicolor , blue and white	6—8	4	6d.

Alyssum saxatile compactum.

R=Rock Plants.

	Month of Flowering	Average Height.	Price each.
Aconitum ochroleucum (<i>orientale</i>), pale yellow flowers	6—8	ft. in. 4	6d.
Wilsonii , pale blue flowers in large spikes, a fine species. A.M.	9—10	5	9d.
Actæa spicata rubra , clusters of bright red berries, on spikes, over-topping the foliage. F.C.C.	7—8	1 6	9d.
Adenophora Potaninii , pale blue bell-shaped flowers, in elegant slender spikes	7—8	1 6	9d.
R Adonis amurensis , deep yellow flowers, graceful fern-like foliage. A.M.	2—3	1	1/-
R fl. pl. , see list of Specialities.			
R pyrenaica , large bright yellow flowers, strong grower. F.C.C.	4—6	1 3	1/-
R vernalis , brilliant handsome yellow flowers, 2 to 3 inches in diameter ; fern-like foliage	4—5	1	6d. & 1/-
R wolgensis , flowers bright yellow	5—6	1	1/-
R Ethionema coridifolium , small rose-lilac flowers on miniature bushes	6—8	1	1/-
R grandiflorum , long clusters of bright pink flowers	6—8	1	9d.
R iberideum , small, spreading, shrubby, pale lilac	5—6	6	6d.
R stylosum , light pink	6	6	1/-
Agrostemma (<i>Lychnis</i>) coronaria alba , pure white	6—8	1 9	6d.
purpurea , a handsome biennial, richest crimson	6—8	1 9	6d.
Flos-jovis , rose-tinted, useful for cutting	6—8	9	6d.
hybrida (<i>Walkerii</i>), brilliant rose-crimson, suitable for poor soils, useful for cutting	6—8	2	9d.

R = Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each.
R	Ajuga metallica crispa , metallic-green crested foliage and blue flowers; useful for bedding	5-6	6	6d.
R	reptans atropurpurea , foliage dark bronzy-red; an excellent edging plant	5-6	6	6d.
R	compacta , very close and free-growing, suitable for edgings; flowers blue	5-6	6	6d.
R	variegata , variegated foliage	5-6	6	6d.
R	Alchemilla alpina , dark foliage with silvery edge, free and vigorous	4-5	6	6d.
	Aletris farinosa , tufts of spreading foliage; flowers in racemes, bell-shaped, white	5-6	1 9	1/-
	Allium			
	Alstrœmeria } see Bulb Catalogue			
R	Alyssum alpestre , a minute species greyish foliage with bright yellow flowers	6	2	9d.
R	argenteum , silvery foliage with masses of bright yellow flowers	6	1	6d.
R	montanum , a dwarf Alpine, with yellow flowers and grey-green foliage...	4-6	2	6d.
R	saxatile citrinum , lemon-yellow	3-5	8	6d.
R	compactum , masses of golden-yellow flowers, invaluable for spring bedding, see illustration page 5	3-5	8	6d.
R	fl. pl. , a double-flowered form	4-5	8	9d.
R	variegatum , leaves margined with yellow	3-5	9	9d.
R	serpyllifolium , silvery foliage and pale yellow flowers	4-6	2	9d.
R	spinosum , silvery foliage, white flowers	6-8	9	1/-
	Anchusa italica , strong-growing, flowering all the summer; blue, valuable for bees	5-8	3 6	6d.
	Dropmore Variety , a profusion of the deepest and brightest porcelain blue flowers, see illustration on cover	6-9	3 6	9d.
	Opal , see list of Specialities.			
R	Androsace carnea , free flowering, one of the best, pink	3-5	6	9d.
R	eximea			
R	Chumby Brilliant } see list of Specialities.			
R	lanuginosa , flowers in umbels, of a rich rosy hue	6-9	6	1/-
R	Leichtlinii , long trailing stems with white silky foliage and numerous umbels of white flowers with pink centre. F.C.C.	6-8	6	1/6
R	sarmentosa , very beautiful and distinct heads of pink flowers and tufts of silvery white leaves	5-6	6	9d.
R	villosa , small grower, flowers white or pale rose	5-6	2	1/-
R	(<i>Douglasia</i>) Vitaliana , very dwarf, rich yellow	5-6	1	1/-
	The Androsaces all grow and flower freely in the fissures and cracks of the rockery.			
R	Anemone alpina , white, robust and free	4-5	1 6	9d.
R	sulphurea (<i>A. sulphurea</i>), flowers two inches in diameter, a beautiful soft sulphur yellow	4-5	1 6	1/-
R	* apennina , lovely sky-blue, compact habit	3-4	5	6d.
R	* alba , the white variety. F.C.C.	3-4	5	9d.

Anemone japonica.

R = Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each.
R	Anemone *blanda , large and finely-rayed flowers of a deep sky-blue, dwarf and hardy, the earliest of all, and one of the most beautiful of the genus	2—3	5	6d.
R	alba , the white variety	2—3	6	9d.
	*coronaria , many shades of colour, see Bulb Catalogue			
R	*fulgens , dazzling vermilion-scarlet with a jet-black centre; suitable for cutting. F.C.C.	3—5	1	6d.
R	*Aldboro' variety , like the type but larger, longer and broader petals, more highly coloured	3—5	1	6d.
R	*fl. pl. , the double variety; very showy, numerous narrow scarlet petals	3—5	1	6d.
R	*grandiflora , a magnificent variety; the same colour as <i>fulgens</i> , but superior in size, having much broader, rounded petals	3—5	1	9d.
R	*multipetala , several rows of narrow bright scarlet petals	3—5	1	6d.
	Hepatica , see Hepatica, page 31			
	japonica , rich carmine within and rose without, with a tuft of golden anthers, see illustration	7—10	1 9	6d.
	alba (<i>Honorine Joubert</i>), highly decorative and invaluable for cutting	7—10	1 9	6d.
	crispa , rose-coloured flowers, deeply frilled foliage	9—10	2	9d.
	elegantissima , delicate satiny rose semi-double flowers	7—10	2 6	6d.
	Lady Ardilaun , pure white. stronger habit, larger leaves and flowers than the variety <i>alba</i>	7—10	2 0	6d.

R = Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Anemone japonica Mont Rose , semi-double clear rose, A.M.	7—10	1	9d.
	Prince Heinrich , a very fine double flower, a lovely deep pink	9	2 6	9d.
	Queen Charlotte , semi-double, delicate silky rose, darker reverse. A.M.	7—10	3	9d.
	rosea , pale rose, showy and free-flowering	7—10	1 9	6d.
	superba , large delicate rose flowers on rigid stems	7—10	3	9d.
	Whirlwind , semi-double, white	7—10	1 9	6d.
R	narcissiflora , white, with yellow stamens	4—5	9	9d.
R	* memorosa alba plena (Double White Wood Anemone), flowers produced in great profusion very early in the spring	3—5	8	6d.
R	* Robinsoniana , sky-blue	3—5	8	6d.
R	* rosea , rose-pink...	3—5	8	6d.
R*	palmata , large handsome flowers of a glossy golden yellow, thick leathery foliage	5—6	9	9d.
R	alba , pure white form of (<i>A. palmata</i>)	5—6	9	6d.
R	pennsylvanica , large white flowers	5—6	1 6	9d.
R	Pulsatilla (The Pasque Flower), deep purple, with long silky hairs on the exterior	3—4	9	6d.
R	alba , a white variety of the Pasque Flower	4—5	1	1/-
R	* ranunculoides , very distinct clear golden-yellow	3—4	6	6d.
	rivularis , white with purple anthers; requires a damp situation	5—6	1 3	9d.
	* stellata (<i>hortensis</i>) (Peacock Anemone), see Bulb Catalogue			
R	sylvestris (Snowdrop Windflower), large white flowers, particularly free and showy, invaluable for cutting	4—5	1 3	6d.
R	flore pleno , a double-flowered form with pure satiny white flowers. A.M.	4—5	1 3	9d.
R	vernalis , a dwarf species, white tinted with purple	3—5	6	1/-
	Anemones (our selection), 5/-, 7/6, and 10/6 per doz.			
	Anemonopsis macrophylla , see list of Specialities			
R	Anthemis Aizoon , (<i>Achillea ageratifolia</i>), dwarf compact silvery tufts of foliage	7—8	6	9d.
	macedonica , large pure white flowers	7—8	1 8	9d.
	tinctoria , yellow	6—9	1 3	6d.
	Anthericum graminifolium (<i>ramosum</i>), grass-like foliage, flowers white, rapid and graceful grower	5—7	1 8	6d.
	Liliago major (St. Bernard's Lily), pure white starry flowers in spikes	5—7	1 6	9d.
	Lilium (<i>Paradisea lilium</i>) (St. Bruno's Lily), a pretty plant with broad grassy leaves, sweet-scented flowers, with a small green dot on each segment	5—7	2 6	6d.
	giganteum , a first class perennial in all ways larger than the type	5—7	3	1/6
	majus (<i>algeriense</i>), flowers much larger than the type, a most desirable plant	5—7	2 6	9d.
R	Anthyllis montana , dwarf, hairy foliage, bright pink pea-shaped flowers	6—7	6	9d.

Arenaria montana in a Rock Garden.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
			ft. in.	
R	Aquilegia alpina , blue and white	5—6	1 9	9d.
	californica (<i>formosa</i>), large reddish orange and yellow flowers	5—7	2 3	9d.
	canadensis , brilliant scarlet sepals, pale yellow petals; a pretty contrast	5—7	1 9	9d.
	chrysantha (Golden Columbine), produces for 2 months continuously, flowers of a beautiful yellow; its spur is most delicate, often 2 inches in length	5—7	2 9	6d.
R	cœrulea , lovely blue and white flowers 2 to 3 inches long. F.C.C.	5—7	1 9	9d.
R	glandulosa , a lovely dwarf plant, producing large and exquisitely tinted blue and white flowers	5—6	1	9d.
	sibirica , flowers double, a rich blue, free and showy	5—7	2	9d.
R	Stuartii , (<i>A. glandulosa</i> × <i>A. Wittmanniana</i>) resembling <i>A. glandulosa</i> , but much larger and more free-flowering; the flowers, often 4 inches across, are borne on stout stalks; undoubtedly one of the handsomest and most attractive of the genus. A.M.	5—7	1 3	1/6
	Veitch's hybrids , a strain of exquisite colouring, producing in immense quantities, pink, yellow, blue and lavender flowers, in all shades	5—7	2 9	9d.
	vulgaris , good mixed varieties	5—7	2 3	6d.
	alba , a good white	5—7	2 3	6d.
	6 distinct Aquilegias (our selection)	4/-		
12	(in 6 distinct varieties)	7/6		
R	Arabis albida variegata , a fine edging plant	3—5	6	6d.
R	fl., pl. , pure white, double	3—5	1	6d.
R	fl., pl., variegata , a variegated form of the double white, foliage marked yellow and green	5—6	6	6d.
R	alpina , masses of white flowers early in spring	3—5	8	6d.
R	aubrietioides , stout spikes, pale pink, very compact. A.M.	5—6	6	9d.
R	lucida variegata , dark glossy foliage with golden edge, excellent for edging	3—5	3	6d.
R	rosea , pretty rose coloured flowers, invaluable for the rockery	5—8	6	9d.
R	Arenaria balearica , white starry flowers, borne above dense tufts of foliage, invaluable for the rockery	5—7	2	6d.
R	cæspitosa , leafy stems small white flowers	6—7	3	6d.
R	graminifolia , grass like tufts of foliage covered with white flowers	6—7	8	9d.
R	montana , white, a most useful rock plant. See illustration, page 9.	5—7	2	9d.
R	purpurascens , purple flowers, a tufted dwarf plant that may be mixed with Saxifrages on the rockery	6—7	3	9d.
R	Armeria bracteata rubra , bright crimson, bracts 1 to 2 inches long	5—7	6	9d.
R	cæspitosa , compact heads of rosy-pink flowers	6—8	2	1/-
R	Cephalotes (<i>latifolia</i>) (The Great Thrift); one of the most useful perennials known, valuable for the edge of borders.	5—7	1	6d.
R	alba	5—7	1	9d.
R	rubra	5—7	1	6d.
R	Lauchearia , very free and showy, quite the finest for edging borders 3/6 per doz., 20/- per 100.	5—7	9	

Astilbe grandis.

Aubrietia deltoidea graeca

R = Rock Plants

		Month of Flowering	Average Height. ft. in.	Price each.
K	Asperula hirta , neat compact tufts of foliage studded with white flowers	7—9	3	9d.
R	odorata (Sweet Woodruff), snowy-white in terminal corymbs	5—6	6	6d.
R	suberosa , silvery foliage and pretty pink flowers	6—7	3	9d.
	Asphodelus albus , numerous white flowers borne on stems, foliage light and graceful	5—7	3 6	9d.
	luteus , bright yellow flowers and glaucous foliage; a useful border plant	5—7	2 9	6d.
R	Aster alpinus , large, pale blue	5—6	6	6d.
R	albus , a pure white variety of the preceding	5—6	6	6d.
R	magnificus , see list of Specialities			
R	roseus , a pink-flowered variety; useful for contrast	5—6	6	9d.
R	speciosus , flowers 3 to 4 inches in diameter, rich lilac. F.C.C.	5—6	9	1/-
R	diplostephioides , large lilac-blue flowers	5—6	1 6	9d.
R	ptarmicoides , white, neat dwarf bushy habit	9	1 6	6d.
R	sub-cæruleus , very large lavender-blue flowers on branching stems	5—9	1 6	6d.
	Asters (Michaelmas Daisies), see page 60			
	Astilbe chinensis , spikes of light pink flowers, elegant for cutting. F.C.C.	8—9	2 6	9d.
	Davidii , graceful spikes of deep rose-violet flowers, elegant tufted foliage. F.C.C.	8—9	6	9d.
	grandis , see list of Specialities, also illustration, page 11.			
	hybrida rubra , pink spikes in beautiful contrast to dark stems	7—8	3	1/-
	Silver Sheaf , panicles of white spirea-like flowers	7—8	2 6	6d.
	japonica , see <i>Spiraea japonica</i>			
	rivularis (Goat's Beard), white, tall plumes above handsome foliage; suitable for grouping by water	7—8	3	1/-

R=Rock Plants.

		Month of Flowering	Average height	Price each
	Astilbe Thunbergii , numerous panicles of flowers resembling a Spiraea; extremely free and graceful	7—8	2 ft. in.	9d.
R	Astragalus hypoglottis albus , numerous white papilionaceous flowers; pretty for a border or rockery	5—6	2	6d.
	Astrantia carniolica , very curious white flowers enclosed in bracts	6—7	1	9d.
	major , curious pink flower heads	5—6	2	6d.
R	Aubrietia deltoidea , varieties. See illustration, page 12.	3—5	6	6d.
R	Bridesmaid , see list of Specialities			
R	Campbellii (Improved), deep violet	3—5	6	6d.
R	Crimson King , see list of Specialities			
R	Dr. Mules , large, dark violet; one of the best	very 3—5	6	9d.
R	Fire King , bright crimson	dwarf 3—5	6	9d.
R	græca , pale purple	and 3—5	6	6d.
R	Hendersonii , dark purple	compact 3—5	6	9d.
R	H. Marshall , dark mauve flowers. A.M.	valuable 3—5	6	6d.
R	Lavender , pale lavender, late flowering. A.M.	front-row 3—5	6	9d.
R	Leichtlinii , rose-crimson. A.M.	plants 3—5	6	6d.
R	Lilac Queen , large, soft lilac, a charming colour	for the rockery. 3—5	6	9d.
R	Moerheimii , very fine, pink	3—5	6	9d.
R	Prichard's A.1. , dark purple, individual flowers large. A.M.	4—5	6	9d.
R	Purple Robe , rich purple, showy	4—5	6	9d.
R	purpurea , rich dark purple	3—5	6	6d.
R	argentea variegata , variegated form. F.C.C.	3—5	6	6d.
R	aurea variegata , golden-variegated foliage, purple flowers	3—5	6	9d.
R	Souvenir de W. Ingram , large, deep reddish-rose	3—5	6	9d.
R	taurica albida , on first opening the flowers are white, afterwards they turn pink	3—5	6	9d.
R	Wallacei , perpetual-flowering, fine deep violet	3—11	6	6d.
R	Auricula , see page 62.			
	Bambusa , see Catalogue of Hardy Trees and Shrubs.			
	Baptisia australis , racemes of blue, pea-shaped flowers, with strong tufts of trifoliate leaves	6—7	3	9d.
	Barbarea vulgaris fl. pl. , double, yellow, in massive spikes, prefers moist conditions	6—7	1 6	9d.
	Bedding Plants , see page 91.			
	Bellis perennis (Daisy)—			
	aucubæfolia	10/6 and 12/6 per 100	6	
	crimson			
	double white			
	Rob Roy			
R	Bellium minus , a distinct Alpine Daisy of neat habit with small pale lilac flowers	5—9	3	9d.
	Betonica grandiflora , see <i>Stachys grandiflora</i> , page 53.			
	Bletia hyacinthina , a pretty hardy Orchid from China, purplish-crimson	5—6	1 3	1/-

R = Rock Plants.

		Month of Flowering	Average Height.	Price each.
	Bocconia cordata , numerous spikes of cream-coloured flowers, very effective	6—8	ft. in. 5 0	6d.
	microcarpa , terra-cotta-yellow in terminal panicles; foliage elegantly lobed, white beneath	6—8	4 0	9d.
	Bog Plants , see page 89.			
	Boltonia asteroides , star-like pinkish-white flowers	8—9	4 6	6d.
	latisquama , white, 1½ inch across, on much-branched stems; useful for cutting	8—9	6	6d.
	Bupthalmum salicifolium , golden-yellow	6—7	2	6d.
	speciosissimum (<i>Telekia</i>), large yellow flowers	6—8	3 6	9d.
	* Calla palustris albo-maculata , deep glossy green foliage, handsomely spotted with white	6—7	2 6	9d.
R	Callirhoe involucrata , a trailing plant, bearing a profusion of violet-crimson flowers	6—9	4	9d.
R	lineariloba , compact, prostrate, very floriferous; flowers large, deep purple and white	6—9	4	9d.
	Caltha palustris (Marsh Marigold), suitable for the margins of streams, producing abundance of golden-yellow flowers	4—5	9	6d.
	monstrosa plena , rosettes of double golden flowers	4—5	9	9d.
	Calystegia pubescens plena , large double pale rose flowers, borne in great profusion. It flowers for several months, and is one of the best and showiest of hardy climbers	6—9	7 0	6d.
R	Campanula abietina , dwarf and neat, producing deep purplish- blue flowers in great profusion. A.M.	6—7	10	9d.
R	Allionii , a dwarf alpine species, bearing large blue or rarely white flowers above a rosette of leaves, succeeds in an exposed situation, in a well-drained soil	5—7	9	1/6
R	carpatica , large and erect, light blue; useful for edgings, very floriferous	5—7	9	6d.
R	alba , the white variety	5—7	9	6d.
R	pelviformis , fragrant pale blue flat flowers	5—7	1 3	9d.
R	Robert Parker , an improved form with deep blue flowers	5—7	9	9d.
R	Riverslea , deep blue; a vigorous grower. A.M.	5—7	1 3	9d.
R	turbinata , large, erect, very fine	6—7	6	9d.
R	alba , large white flowers, very con- spicuous on dwarf masses of dark green foliage	6—7	6	2/6
R	collina , dwarf, deep blue flowers	7—8	1	1/-
R	Elatines , creeping, bluish-purple	6—8	3	6d.
R	Erinus , pretty lavender blue starry flowers		6	9d.
R	Fergusonii , large cup-shaped pale blue flowers, A.M.	7—8	2	1/-
R	fragilis , large blue flowers on trailing stems, suitable for basket work, somewhat tender	6—7	6	9d.
R	garganica , branching peduncles of pale blue flowers, habit prostrate	6—8	3	9d.
R	alba , a white form of the preceding	6—8	3	1/-
R	hirsuta , pale blue flowers, foliage very hairy	6—8	3	9d.
R	alba , see list of Specialities			

R = Rock Plants.

		Month of Flowering	Average Height.	Price each.
R	Campanula G. F. Wilson , intense purplish blue, salver- shaped flowers	6—8	ft. in. 3	6d.
R	glomerata acaulis , dense tufts of foliage with large heads of rich blue flowers	6—8	4	9d.
	alba , a pure white form	5—7	1	1/6
	dahurica , clusters of flowers, rich deep blue, easiest cul- ture, very effective	5—7	1 3	9d.
	pallida , a choice variety with pale blue flowers	5—7	1 3	1/-
	grandis , (<i>latiloba</i>), long, widely open blue flowers	6—7	2 3	6d.
	alba , the white variety	6—7	2 3	6d.
	Hendersonii , flowers very large and numerous, of a beautiful mauve tint; one of the best. F.C.C.	6—7	1	9d.
R	Hostii alba , a white form of <i>C. Hostii</i>	7	1	9d.
R	hybrida Isabel , see list of Specialities			
R	White Star , see list of Specialities			
R	isophylla , bright light blue flowers; trailing habit	7—8	6	6d.
R	alba , bell-shaped flowers of the purest white. F.C.C.	7—8	6	6d.
R	Mayi , a hybrid with pale-blue saucer shaped flowers and greyish leaves	7—8	6	9d.
	lactiflora , milk-coloured, tinged with blue, erect in loose panicles	7—8	4 6	1/-
	latifolia , strong erect stems, large drooping blue flowers, very free and effective	6—7	2 6	6d.
	alba , the white variety	6—7	2 6	9d.
	macrantha , large purplish blue flowers, vigorous and showy, one of the best	6—7	4	9d.
	Medium calycanthema , blue, purple, mauve, rose, white. Handsome varieties of the Canterbury Bell, with large coloured calyx of the same hue as the trumpet 3/- per doz.	6—7	2	
R	muralis (<i>Portenschlagiana</i>), densely-tufted, small bright green leaves, a profusion of light blue flowers	6—8	5	6d.
R	bavarica , a stronger grower than the type, deep blue flowers	6—8	6	9d.
R	nitida (<i>planiflora</i>), dark evergreen foliage growing in whorls, blue flowers	7—9	9	9d.
R	alba , a pure white form of above	7—9	1	9d.
	nobilis (<i>punctata</i>), large drooping flowers, white spotted with red, very distinct	5—7	1	9d.
	persicifolia , blue, showy and effective	6—8	2	6d.
	fl. pl. , double blue	6—8	2	9d.
	alba , pure white, large and fine, useful for cutting	6—8	2	6d.
	grandiflora . A.M.	6—8	2	9d.
	fl. pl. , double white, very floriferous, one of the best and purest	6—8	2	9d.
	marginata , pure white flowers striped and splashed with pale blue	6—7	3 3	1/-
	Moerheimii , large semi-double white flowers. A.M.	6—7	2	9d.
	humosa , im- mense double blue flowers, sturdy habit	6—7	3 3	1/-

R=Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Campanula phytidocalyx (<i>amabilis</i>)	}	see list of Specialities	
R	Profusion			
R	pulla , a neat little Alpine with drooping dark blue flowers	6—7	3	9d.
R	pulloides , see list of Specialities			
R	pusilla , (<i>pumila</i>), dwarf, neat and compact	6—7	3	6d.
R	alba , the white variety	6—7	3	6d.
	pyramidalis , strong spikes covered with blue flowers	7—8	5 6	6d.
	alba , the white variety	7—8	5 6	6d.
	compacta , dwarfer than the type, larger flowers	7—8	3 6	9d.
	alba , habit of the preceding, flowers pure white	7—8	3 6	9d.
R	Raineri , a compact mass, exceedingly pretty; a good rock plant	5—7	6	1/6
R	Standfieldii , a hybrid with large deep blue flowers, very free blooming	7—8	6	1/—
	Trachelium alba plena , double white, free	6—7	2	9d.
	Van Houttei , flowers very large and long, of a beautiful blue, one of the best	7—8	2	6d.
	pallida (<i>Burghaltii</i>), a paler tint than type, very pretty	7—8	2	6d.
	Six Choice and Distinct Campanulas, our selection, 3/6; 12 ditto, 7/6			
R	Cardamine pratensis plena , a double variety of the Cuckoo flower	4—5	9	6d.
R	trifolia , white flowers, trilobed leaves	4—5	9	9d.
	Carnations , see page 62			
	Catananche cærulea , numerous heads of blue flowers; very useful for borders or shrubberies	7—9	2	6d.
	bicolor , white, shaded with blue	7—9	2	6d.
	Centaurea dealbata , silvery foliage, rose-pink flowers	7—8	1 3	6d.
	glastifolia , large globular heads of golden yellow flowers, very good for cutting	7—9	5	9d.
	macrocephala , very striking, large deep yellow flowers, produced in profusion	7—9	3 6	9d.
	montana , large blue flowers; very useful for cutting	5—9	1 9	6d.
	alba , the white variety	5—8	1 9	6d.
	rubra , the red variety	5—9	1 9	6d.
	ruthenica , elegant straw, or sulphur-yellow flowers, fern-like foliage	6—8	3	6d.
	Centranthus ruber (Red Valerian), large heads of bright red flowers; useful border plant	6—9	2 6	6d.
	albus , similar to above but with white flowers	6—9	2—6	6d.
	coccineus , vivid crimson, very effective for massing in the border	6—9	2	6d.
	Cephalaria alpina , handsome yellow flowers, as large as <i>Scabiosa caucasica</i> , very fine	5—8	4	9d.
R	Cerastium arvense compactum , close prostrate green foliage, with masses of white bloom in early summer, a fine plant for banks and bedding	6—7	9	6d.
	Biebersteinii , closely allied to <i>C. tomentosum</i> , but with larger leaves and flowers	6—7	9	6d.

R=Rock Plants.

	Month of Flowering	Average Height	Price each
Cerastium tomentosum , greyish white foliage and white flowers; useful for edging	6—7	ft. in. 9	6d.
R Chamaelirium carolinianum , dense masses of white flowers, suitable for damp shady place on rockery, requires peat soil	6—7	6	1/6
Cheiranthus alpinus (Alpine Wallflower) light yellow	5—6	6	6d.
Cheiri (Single Wallflower), crimson or yellow, 2/- per doz., 10/- per 100	5	1 6	
luteus plenus (Double Yellow Wallflower)	3—4	1	9d.
purpureus plenus , (Double Purple Wallflower)	3—4	1	9d.
R "Harpur Crewe," double yellow, flowers small and numerous	4—5	1	9d.
Chelone (<i>Pentstemon</i>) barbata , bright scarlet tubular flowers	6—9	2	6d.
obliqua , numerous terminal spikes of rich deep pink flowers	6—9	3 6	9d.
alba , the white variety	6—9	3 6	6d.
Chrysanthemum latifolium (<i>lacustre</i>), flowers 2½ inches across, white with yellow centre; one of the most effective plants for autumn decoration	8—10	4	6d.
maximum (true), large white flowers in profusion; one of the best border plants	7—8	2	6d.
G. H. Sage , large white flowers with frilled ray florets; very distinct	7—8	2	6d.
King Edward , white Marguerite-like flowers, 4 or 5 inches diameter, dark green foliage	8—10	2 6	9d.
Mrs. Charles Lowthian Bell , white flowers, 6 to 7 inches diameter, freely produced, very early	6—9	1 6	9d.
Triumph , a hybrid between <i>C. maximum</i> and <i>C. lacustre</i> . The flowers are large, with pure white broad rays; one of the best	7—8	2	9d.
uliginosum , see <i>Pyrethrum uliginosum</i> .			
R Chrysobactron (<i>Bulbinella</i>) Hookeri , a Lilaceous plant with long linear leaves and stout flower stems, thickly set with bright yellow flowers; requires a deep moist soil	5—6	2 3	1/-
Chrysocoma (<i>Aster</i>) Linosyris (Goldy-locks), dense heads of bright yellow flowers, neat and attractive habit	8—9	2	6d.
Cimicifuga cordifolia , an effective border plant, white flowers on erect stems, heart-shaped leaves	8—10	3	1/-
japonica , panicles of white flowers	8—10	1 6	9d.
racemosa , a robust plant with feathery drooping racemes of white flowers 1 to 3 ft. long	7—8	4	9d.
simplex , white flowers in spikes 6 or more inches in length	10—11	2 6	1/-
R Cistus , see Catalogue of Hardy Trees and Shrubs.			
Clematis heracleæfolia Davidiana , whorls of sweetly-scented pale blue flowers	6—8	3	9d.
erecta (<i>recta</i>), erect bush covered with small white flowers	6—9	3	9d.
fl. pl. see list of Specialities.			
integrifolia , a good species with small deep blue flowers	6—9	2	9d.

R=Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
R	Codonopsis ovata , large bell-shaped flowers of a beautiful metallic blue, veined and blotched with white and yellow	6—7	1	9d.
R	Conandron ramondioides , see list of Specialities.			
	Convallaria majalis (Lily of the Valley), see Bulb Catalogue.			
R	Convolvulus althæoides , red or lilac flowers borne on trailing stems, shining silvery leaves	6—9	2 6	1/
R	Cneorum , a shrubby species with silvery grey foliage, blush white flowers, sheltered position best	5—6	2 6	1/-
R	mauritanicus , a trailing plant, bright blue flowers	6—7	9	6d.
	Coreopsis grandiflora , flowers produced in great profusion, 3 inches in diameter, bright golden yellow	6—9	3	6d.
	lanceolata , rich yellow blossoms on slender stalks	6—9	2	6d.
	verticillata , a slender plant with whorls of narrow leaves and rich golden yellow flowers about an inch in diameter	6—9	1 9	9d.
	Coriaria japonica , terminalis , } see list of Specialities.			
R	Coronilla iberica , (<i>cappadocica</i>), a trailing plant bearing abundance of yellow pea-shaped flowers	5—9	6	9d.
R	minima , fragrant yellow flowers, procumbent habit, a charming rock-plant	5—9	6	1/-
R	varia , white and pink flowers all through the summer	5—10	1 9	6d.
R	Corydalis lutea , graceful masses when grown in the crevices of walls, numerous spurred yellow flowers	5—8	9	6d.
R	nobilis , yellow tipped with brown, very beautiful	5—7	1 3	9d.
	Crambe cordifolia , one of the finest large-leaved herbaceous plants, striking and bold, white flowers in profusion	5—6	6 6	6d.
	Crinum *capense . A.M. }			9d.
	*album } Very handsome bulbous plants }			9d.
	*Moorei . F.C.C. } with white or light pink flowers }	7—9	2 6	2/6
	Powellii . F.C.C. } borne on stout scapes }			2/-
	*album . A.M. }			1/6
R	Crucianella (Phuopsis) stylosa , heads of bright pink flowers	6—8	9	6d.
R	Cyananthus lobatus , creeping dainty blue flowers	7—9	4	1/-
R	Cyclamen africanum , large bold foliage, red and white flowers	9	6	9d.
R	*Atkinsonii album (<i>ibericum</i>), pure white flowers produced freely in winter, perfectly hardy	2—4	5	1/-
R	*roseum , rose, foliage beautifully marbled	2—4	5	6d.
R	*Coulm , deep crimson flowers, with dark plain foliage	1—3	5	9d.
R	*europæum , purplish rose, one of the best of the hardy species, succeeds in almost any soil or situation			6d.
R	*album , the white variety	8—10	6	1/-
R	*neapolitanum , leaves zoned with white, rose-pink flowers			6d.
R	*repandum , very pretty, slightly tender	5—6	3	9d.
	Cypripedium acaule (<i>humile</i>), large purple and rose-purple flowers, the slipper being often 2 inches in length, rare, perfectly hardy	5—6	10	1/6

R = Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Cypripedium Calceolus , sepals and petals dark brown, slipper clear yellow, an inch in length; requires a warm sheltered position on calcareous soil or on limestone rock	5—6	1 3	1/-
	macranthum , large flowers of a deep purplish rose veined with a darker tint; requires a well-drained loam, sheltered situation; should be kept dry in winter	6	1	2/6
	parviflorum , sepals and petals brown, slipper bright yellow; delicate and handsome	6	1 3	1/6
	pubescens , greenish yellow sepals and petals spotted with brown, slipper sulphur yellow, often 2 inches long; will grow and flower freely in peat-soil in a shaded border	5—6	1 9	1/6
	spectabile , sepals and petals white, slipper rounded and inflated, pale rose, about 1½ inches long; grows and flowers freely in almost any shady border in peat and leaf-mould	6	2	2/6 to 5/-
	Dactylis glomerata variegata , a highly ornamental variegated grass, very useful for edging	7—8	6	6d.
	Delphinium Brunonianum , rather rare, has a musky odour, flowers large, light blue, which deepens to purple at the margins	7	1 6	9d.
	cardinale , beautiful and elegant, large bright scarlet flowers	7—8	2	9d.
	cashmirianum , flowers an inch in diameter; pale bluish purple, borne in terminal corymbs of six or eight	6—7	1 4	6d.
	chinense (<i>grandiflorum</i>), stems branching, terminating in clusters of blue flowers	6—7	1 3	6d.
	formosum , deep blue, very free, forming strong clumps, valuable for cutting	6—7	3 6	6d.
	grandiflorum album , satiny white flowers, freely produced, very showy	6—7	2	9d.
	Cineraria , flowers of most intense gentian blue	6—9	1 3	1/-
	plenum (Double Siberian Larkspur), a lovely bright blue, extremely beautiful and rare	6—7	2 3	3/6
	nudicaule , orange-scarlet, very distinct	6	1 6	6d.
	sulphureum , a remarkable species of branching habit, with stiff wiry stems covered with sulphur-yellow flowers	7—8	3 6	9d.
	trolliifolium , bright blue flowers with white centres borne in loose racemes	5—6	3	9d.
	Florist's Varieties , see page 63.			
	Dendromecon rigidum , see list of Specialities.			
	Dentaria (<i>Cardamine</i>) digitata , rose-pink	4—5	1	9d.
R	Dianthus alpinus , flowers about an inch in diameter; rose spotted with crimson, produced in profusion	5—6	4	9d.
R	albus , see list of Specialities.			
R	arenarius , flowers white with a purple spot and pressed purple hairs, margins fringed	6—7	6	6d.
R	arvernensis , clear rose-coloured flowers, neat glaucous foliage	5—6	3	1/-
R	Atkinsonii , deep crimson	6—7	6	1/6

Foxgloves (*Digitalis*)

R=Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Dianthus barbatus , (Sweet William) masses of flower of the most vivid and brilliant colours 2/6 per doz. 15/- per 100	6—7	1 6	—
	magnificus , the very fine old double crimson (Sweet William)	6—7	9	9d.
R	cæsius , rose-coloured, very fragrant	6—7	6	6d.
R	cruentus , red-crimson flowers on slender stems	5—6	1	9d.
R	deltoides , white or pink spotted flowers, produced freely on erect stems; useful for the border or rockwork	6—8	9	6d.
R	albus , similar to the type but has white flowers	5—8	9	6d.
R	fragrans , white, suffused with purple, very fragrant	5—6	9	9d.
R	glacialis , rosy crimson, a beautiful Alpine "Pink"	5—7	3	9d.
	Knappii , clear sulphur-yellow, borne in terminal clusters of from five to nine	6—7	9	1/-
R	microlepis , a miniature Rock-Pink. The plant is scarcely an inch high, while the white flowers with rosy lilac spots are $\frac{3}{4}$ inch diameter	6—9	1	2/6
	Napoleon III. , brilliant scarlet, undoubtedly the best of the Mule Pinks	5—6	6	9d.
R	neglectus , bright deep carmine-rose, serrated petals, a charming rock-plant	6—9	3	9d.
R	plumarius , single purple, the edges of the petals much crenated; grows naturally in the crevices and cracks of old walls	5—6	6	6d.
R	sylvestris , petals red with crenate edges	6—7	1	9d.
	Dictamnus caucasicus (The Burning Bush), larger than <i>D. Fraxinella</i> in foliage and bloom spike. A.M.	6—7	2 6	1/-
	Fraxinella , dense tufts of large pale purple flowers, very handsome	6—7	1 9	9d.
	albus , the white variety	6—7	1 9	9d.
R	Dielytra (<i>Dicentra</i>) eximia , graceful racemes of purplish-red flowers; a fine hardy perennial	6—9	1 3	9d.
	*spectabilis , rose pink, long and graceful drooping racemes	6—9	1 3	9d.
	alba , the pure white variety	6—9	1 3	1/-
	Digitalis grandiflora (<i>ambigua</i>), large bell-shaped yellow flowers	6—7	3 6	6d.
	Veitch's Spotted , pure white, spotted purple. A.M. See illustration page 20	6—7	3 6	6d.
	purpurea (Foxglove), purple spotted or white, in many fine varieties 3/- doz.	6—7	3 6	
	Dodecatheon Jeffreyi (<i>D. Meadia lancifolium</i>), umbels of drooping rose-coloured flowers with a yellow eye; very distinct, easily recognised by its large leaves	5—7	1 6	9d.
R	Meadia elegans , purple flowers, much resembling a cyclamen; thrives well on a rockery, or in a shaded situation	5—7	1 2	9d.
R	splendidum , deep crimson with a yellow ring	5—7	1 2	6d.
	Doronicum austriacum , an effective border plant in the early spring, producing, in great profusion, bright-yellow Daisy-like flowers	3—5	1 3	6d.
	Clusii (<i>glaciale</i>), rich yellow, very floriferous	4—6	1 3	6d.

Cut spikes of *Eremurus* with a groundwork of *Paeonies*.

R=Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each.
	Doronicum plantagineum excelsum (Harpur Crewe), large yellow flowers 2 to 3 inches in diameter; blooms with great free- dom; one of the most showy plants in cultiva- tion and invaluable for cutting	4—6	2 6	6d.
R	Draba bruniifolia , cushions of dark foliage, with heads of yellow flowers	3—5	2	9d.
R	gigas , white, very free	3—5	3	6d.
R	Dracocephalum Ruprechtii , whorls of light blue flowers	5—7	1	9d.
R	Ruyschianum , purplish flowers in dense spikes, free flowering	6—8	2	9d.
	virginicum , an erect plant crowded with pink flowers along the upper two-thirds of the stem	8—9	2 6	6d.
	album , the white variety. F.C.C.	8—9	2 6	9d.
R	Dryas Drummondii , large yellow flowers	7—8	6	1/6
R	octopetala , white, yellow centre	7—8	6	9d.
	Echinacea (<i>Rudbeckia</i>) purpurea , a grand old perennial, large red-purple flowers with blackish centre	7—8	2 6	9d.
	Echinops banaticus (Globe Thistle), light blue	7—8	4	9d.
	Ritro , large globular heads of blue flowers, strong grower	6—7	3 6	6d.
	ruthenicus , spherical heads of blue flowers, the upper part of the plant covered with a silvery down; a most distinct and ornamental plant	7—9	2 6	9d.
	sphærocephalus , large pale blue flower heads	7—8	5 6	9d.
R	Edraianthus , see Wahlenbergia.			
R	Epigæa repens (Mayflower or Ground Laurel), clusters of delicate rose-tinted flowers, deliciously fragrant; must be planted under trees or in the shade of shrubs, a charming plant for early spring. A damp situation is necessary	4—5	6	2/6
	Epilobium angustifolium , purplish-rose, very free when planted in a shrubbery or large herbaceous border where it can be left to itself	7—9	3 6	6d.
	album , the white variety	7—9	3 6	6d.
R	Fleischeri (<i>Dodonæi</i>), rose-purple	6—7	9	9d.
R	obcordatum , dwarf trailing habit, rose coloured flowers	6—7	6	1/-
R	Epimedium alpinum , a very pretty border or rock-plant	4—6	1	6d.
R	niveum , white flowers; a neat front row plant for a shaded border, succeeds best in peaty soil	4—6	1	9d.
R	pinnatum , pretty pale yellow blossoms	4—6	1	9d.
	Eremurus , Veitch's Gold Medal Collection. See illustration page 22			
	Bungei , flower scape moderately stout. Individual flowers about an inch in diameter, bright canary-yellow, with a distinct green keel on the under side of the segments, prominent orange-red anthers	6	4	10/6 & 15/-
	magnificus , see list of Specialities.			
	himalaicus , massive pillar-like stems bearing along the upper half of their length numer- ous cream-white flowers arranged in a crowded spiral raceme	6	5	3/6 & 5/-

R = Rock Plants.

		Month of Flowering	Average height	Price, each.
	Eremurus Him-Rob , a hybrid that flowers early. Flowers pale pink borne on stout stems	5	ft. in. 7	7/6 & 10/6
	Olga , differs from <i>E. Robustus</i> in its narrow linear leaves, less vigorous and shorter scapes, but is remarkable for the great beauty of its individual flowers. These are about an inch in diameter, delicate blush-white or lilac tinted, with a thin dark line down the centre of each segment relieved by the bright yellow anthers. One of the latest to flower	7	5	15/- & 21/-
	robustus , stout erect scapes furnished along the upper half with a moderately dense raceme of pleasantly scented flowers each about 1½ inches in diameter. Soft flesh-pink conspicuously relieved by canary-yellow ovary and orange-red anthers.	6	9	3/6 5/- 7/6 & 10/6
	albus , see list of Specialities.			
	Elwesianus , stouter scapes and larger flowers which appear earlier in the season. A beautiful pink relieved by bright orange-yellow anthers. The finest of all.	5	9	5/- 7/6 10/6 & 15/-
	Warei , see list of Specialities.			
	Erianthus Ravennæ , dense and handsome tufts of violet-tinged foliage, useful for planting with Pampas and other Grasses	9—10	4 6	1/-
	Ericas , see Catalogue of Hardy Trees and Shrubs.			
R	Erigeron aurantiacus , deep yellow, free-flowering either as a rock or border plant	6—8	6	6d.
	caucasicus (<i>pulchellus</i>), rose-purple	6—8	1	6d.
	Coulteri , white; useful for the border	6—8	1 6	6d.
	glabellus , blue and yellow, dwarf	6—8	6	6d.
	grandiflorus elatior , large lavender-coloured flowers, distinct	7	6	6d.
R	leiomerus , dwarf habit, pale purple flowers	6—7	6	1/-
	multiradiatus , purple and yellow	7—8	1	9d.
	philadelphicus , light purple and white	6—8	1	6d.
R	Roylei , bluish-purple, yellow disc	6—8	6	9d.
	salsuginosus , lilac-white	6—8	2	6d.
	speciosus (<i>Stenactis speciosa</i>), purplish-lilac, orange centres	6—8	2 3	6d.
	grandiflorus , see list of Specialities.			
	major , a large flowered variety	6—8	2 3	9d.
R	Erinus alpinus , dwarf tufts of leaves, pretty violet-purple flowers, very suitable for old walls and ruins	5—7	3	6d.
	albus , a pure white variety	5—7	3	6d.
R	Erodium guttatum , pure white flowers with a dark blotch at base of upper petals, a pretty rock plant	6—8	9	1/-
R	macradenum , white flowers with violet markings, much divided foliage	6—8	9	9d.
	Manescavii , numerous showy purplish-red flowers about an inch in diameter; a free and vigorous grower	5—9	1 3	9d.
R	Reichardii (<i>chamadryoides</i>), white veined with pink; a very pretty alpine plant	6—8	3	1/-
	Eryngium alpinum , a very beautiful species, with light blue flowers, neat habit. A.M.	6—7	2	9d.
	amethystinum (true), deep blue glistening heads and stems and curiously shaped greyish foliage	7—9	1 9	1/-

R=Rock Plants.

	Month of Flowering	Average Height. ft. in.	Price each.
Eryngium Bourgatii , a beautiful species with steel blue stems and bracts	7—9	1	9d.
giganteum , bracts covered with a silvery amethystine bloom ; a distinct and handsome plant	6—8	2 6	6d.
maritimum (Sea Holly), leaves of a whitish glaucous hue, flowers pale blue in roundish heads	6—8	1	9d.
Oliverianum , numerous roundish heads of bluish flowers	7—9	2 6	9d.
pandanifolium , leaves 3 feet long, tall branching heads of reddish-violet flowers	7—9	8 6	9d.
planum , a useful and pretty species	6—8	2	6d.
tripartitum , distinct, numerous heads of steel-blue flowers and bracts	6—8	2	9d.
Eupatorium ageratoides , dense heads of white flowers	8—9	2	9d.
purpureum , branching heads of purple flowers	7—9	3 6	9d.
R Euphorbia capitata , a neat and effective trailing plant for the dry rockery, yellow flower heads	5—6	4	9d.
R Cyparissias (Cypress Spurge), light green foliage, tinged with a beautiful red in the autumn	5—6	1 6	6d.
R Myrsinites , prostrate umbels of yellow flowers, light green leaves	5—6	6	1/-
R pilosa major , terminal tufts of pale yellow flowers, leaves beautifully tinged with red in the autumn	5—6	1 9	9d.
R polychroma (<i>epithymoides</i>), a handsome Spurge with heads of bright chrome-yellow changing to rosy-bronze	5—6	1 6	9d.
R Ferns, hardy , see page 84			
Ferula communis (Giant Fennel), graceful feathery foliage, forming tufts of the finest green in early spring	8	6	9d.
gigantea , similar to the preceding, but much larger; one of the finest hardy foliage plants in cultivation	7—8	8 6	1/-
Linkii , foliage finely cut	7—8	4	1/6
Francoa appendiculata , somewhat tender, extremely pretty and useful for cutting, long branching spikes of pink flowers	7—8	1 9	9d.
ramosa (Bridal Wreath), pinkish-white flowers on a short stem, very pretty and distinct ; useful for cutting	7—9	1 9	9d.
Funkia Fortunei , deep green foliage, flowers white, shaded lilac	6—8	1 3	1/-
variegata , glossy green leaves, edged with white, showy and distinct	6—8	1 3	1/-
lancifolia , racemes of pale blue flowers	6—8	1 3	6d.
marginata , pale green foliage edged with white, flower light blue	6—8	1 3	1/-
undulata variegata , white and green foliage, useful for the edge of borders	6—8	1 3	9d.
ovata aureo-variegata , golden-yellow variegated leaves	6—8	1 3	6d.
Sieboldii , large heart-shaped glaucous foliage, drooping lilac-tinted flowers	6—8	1 3	9d.
subcordata grandiflora , large and effective pale green foliage, flowers white	8—9	1 3	9d.
12 in 6 distinct varieties (our selection), 5/-			
Gaillardia , see page 66			
Lady Rolleston , see list of Specialities.			
R Galax aphylla , neat rounded toothed foliage, beautifully tinted, dense spikes of white flowers	5—6	8	1/6

R = Rock Plants.

		Month of Flowering	Average Height	Price each
	Galega officinalis albiflora compacta , white pea-shaped flowers in numerous clusters	6—8	ft. in. 4	9d.
	carnea fl. pl. , a splendid border plant with double pink flowers, fine for cutting	6—8	4	1/-
	compacta , pinkish blossoms, dwarf and neat	6—8	2 9	9d.
	patula Hartlandii , very ornamental, lavender-blue and white flowers. A.M.	6—8	3	9d.
R	Gaura coccinea , an American species with rosy-pink to coral-scarlet flowers, very floriferous, good for the border or rockery	7—9	1 6	1/6
	Lindheimeri , a graceful plant with pink and white flowers, requires a warm sunny position	7—10	3	6d.
R	Genista , see Catalogue of Hardy Trees and Shrubs.			
R	Gentiana acaulis , large bells of the deepest blue; a fine edging plant, 30/- and 60/- per 100	3—6	6	6d., 1/-
R	alba , see list of Specialities.			
R	affinis (<i>Bigelovii</i>), flowers an inch in diameter, deep velvety-blue, trailing habit	5—6	9	1/6
R	Andrewsii , terminal clusters of numerous large inflated closed flowers of a beautiful amethystine blue; one of the handsomest Gentians in cultivation	8—9	1 6	9d.
	asclepiadea , deep purplish-blue, darker spots inside, from 12 to 16 on each stem; a border plant	7—8	1 6	1/-
	alba , the white variety	7—8	1 6	1/6
R	bavarica , large velvety flowers of a deep Prussian-blue; dwarf and compact; one of the best	7	5	2/6
	calycosa , sky-blue flowers an inch in length	7—8	1	1/6
R	cruciata , deep blue flowers produced in whorls; succeeds well in a border	5—8	1	6d.
	decumbens , clusters of pale blue flowers; distinct	8—9	1	1/-
	lutea , bold habit, striking in any border; broad lanceolate leaves, whorls of rich yellow flowers	7—8	3 6	1/-
	Pneumonanthe , rich blue flowers, sometimes striped with white, succeeds well in an artificial bog	8—9	10	9d.
R	septemfida , large bright blue flowers, whitish in the throat	8—9	10	1/-
R	verna , the most intense blue, dense tufts; one of the best alpine	3—5	5	9d.
R	Geranium argenteum , very dwarf, silvery foliage, pink flowers	5—8	6	1/-
	armenum , most vigorous and free, deep purplish-crimson	5—8	2 6	6d.
R	cinereum , a dwarf and charming alpine	5—8	6	9d.
	Endressii , bright rose, very floriferous	5—8	2	6d.
R	grandiflorum , large bright blue flowers, front row of border or rockery	5—7	9	9d.
	platyanthum , a Chinese species with rosy-purple flowers, very floriferous	5—8	2	1/-
	platypetalum , crimson-purple flowers	5—8	2	9d.
	pratense album plenum , double white flowers	5—8	1 9	6d.
	fl. pl. , double purplish-blue flowers	5—8	1 6	6d.
	sanguineum , magenta-crimson, neat and dwarf	5—8	6	6d.
	album , a pure white form, very free. A.M.	5—7	6	9d.

R=Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each
R	Geranium sanguineum lancastriense , rose, pencilled with dark crimson ; distinct and pretty	5—8	6	9d.
	striatum , pink with darker veins	7—8	1	9d.
	sylvaticum plenum , light blue	6—8	3	6d.
	Geum coccineum fl. pl. , vivid scarlet double flowers, particu- larly valuable for cutting	6—9	1 6	6d.
	Ewenii , orange, semi-double	6—9	1 3	6d.
R	Heldreichii , orange-red, very attractive. A.M.	6—9	1	6d.
R	splendens , deeper coloured flowers pro- duced more freely than the type	5—6	1	9d.
	miniatum (<i>Chiloense</i>), orange-red, distinct and showy	6—9	1 6	9d.
R	montanum , a pretty alpine, useful for rockwork or borders ; beautiful clear golden-yellow flowers, neat and compact tufts of foliage	4—5	6	6d.
R	aurantiacum , probably a hybrid be- tween <i>G. montanum</i> and <i>G. Heldreichii</i> ; deep orange-yellow. A.M.	4—5	8	9d.
	Gillenia trifoliata , erect slender panicles of white and pink flowers	6—8	2	9d.
	Gladiolus , see Bulb Catalogue.			
	Glaucium flavum , bright yellow flowers, silvery-white leaves	6—8	1 6	9d.
	tricolor , rich orange and mahogany-red flowers, produced freely. A.M.	6—9	1 6	1/-
R	Globularia trichosantha , blue ; a good rock or border plant	5—6	1	6d.
R	Gnaphalium Leontopodium (<i>Edelweiss</i>), a favourite and well-known alpine ; will grow freely in a light open soil	6—7	6	6d.
	Grasses, Ornamental , see page 90.			
	Gunnera manicata , a gigantic plant with striking foliage, the leaves being borne on footstalks 4 to 5 ft. long. A damp shady situation is best. F.C.C.	7—8	5 0	5/- to 10/6
	scabra , large and fine foliage, single leaves often at- taining a width of 4 to 5 feet ; a most con- spicuous and handsome plant in a prominent position, particularly on the margins of ponds or lakes ; succeeds best in a warm sunny spot	7—8	4 6	1/6 to 5/-
	Gynierium argenteum (Pampas Grass), see Hardy Ornamental Grasses, see page 90			
R	Gypsophila cerastoides , a pretty trailing plant, producing numerous clusters of white flowers streaked with violet ; thrives well in an open position on the rockwork	6—7	2	6d.
	paniculata , dense compact bush with small white flowers, produced in great profusion ; very useful for cutting ; the stalks supporting the flowers are much- branched and very graceful	7—9	2 6	6d.
	fl. pl. , a double-flowered form of this extremely useful plant (see illustration page 28. A.M.	7—9	2 3	1/-
R	repens , flowers white	6—8	6	6d.
R	monstrosa , pure white flowers nearly double the size of the type, grows freely and is good for the rockery or front row of border. A.M.	6—8	9	9d.
	rosea , a charming little plant for the rockery with masses of rosy-pink flowers covering the ground	6—8	6	9d.

Gypsophila paniculata fl. pl., a lovely border plant.

R=Rock Plants.

	Month of Flowering	Average Height	Price each
R Haberlea rhodopensis , a pretty shade of lilac with a pale yellow throat. F.C.C.	6—7	ft. in. 5	1/6,2/6
Harpalium rigidum , see <i>Helianthus rigidus</i>			
Helenium autumnale , large yellow flower heads, massive and showy	8—9	5 6	6d.
superbum , larger flowers and a stronger habit than the type. A.M.	8—9	5 6	9d.
pumilum , dwarf and compact, large bright yellow flowers. F.C.C.	6—10	1 3	6d.
magnificum , a finer form than the type, large, soft yellow flowers 2 to 3 ins. across	6—10	3	9d.
Bolanderi , deep golden yellow with a black disc	6—7	3	9d.
grandicephalum striatum , orange striped with crimson. F.C.C.	8—9	4	6d.
cupreum , orange red, very free blooming	7—9	1 9	9d.

R = Rock Plants.

R = Rock Plants.	Month of Flowering	Average Height.	Price each.
Helenium Hoopesii , golden yellow, very useful for cutting	6—8	ft. in. 1 6	9d.
Riverton Gem	}		
Beauty			
see list of Specialities.			
Helianthemums (Rock Roses), ornamental evergreens of dwarf compact habit with large flowers of many shades of colour both in single and double varieties, valuable for dry situations on rockery or dry banks, also for front row of border	5—8	9	
album plenum , double white			9d.
Attraction , orange			6d.
carminatum plenum , double red			6d.
croceum , large yellow			9d.
double orange			6d.
sulphur			6d.
yellow			6d.
Fireball , fiery-red			9d.
Garibaldii , bright pink			9d.
mutabile , flesh colour			9d.
Red Dragon , deep rose			6d.
roseum multiplex , double rose			6d.
Rosy Gem , deep rose			6d.
The Bride , pure white			9d.
tigrinum plenum , double salmon			6d.
Tuberaria , yellow			9d.
venustum plenum , scarlet			9d.
vulgare , a yellow species			6d.
yellow standard , a fine rich yellow			9d.
6 distinct varieties (our selection) 3/-			
12 distinct varieties (our selection), 5/6			
Helianthus decapetalus , pale yellow flowers, about 2 inches across, stalks much branched at the top	7—8	4 6	6d.
giganteus , a very strong grower, free-flowering, bright yellow	9—10	7 6	6d.
lætiflorus , the flowers about 2 inches across, on numerous spreading branches	9—10	7	6d.
Daniel Dewar , very distinct with incurved petals, much like a chrysanthemum	9—10	7	6d.
mollis , leaves handsome, silvery green, flowers yellow, dark centre	9—10	3 9	9d.
multiflorus , very showy	7—9	4 6	6d.
Bouquet d'Or , a very fine double form, bright golden flowers, very distinct	7—9	3 6	9d.
maximus , immense golden-yellow flowers, 4 to 5 inches in diameter.	7—9	6	6d.
plenus , handsome double variety	7—9	4 6	6d.
Soleil d'Or , bright golden-yellow	7—9	4 6	9d.
orgyalis , tall, slender stems, drooping narrow leaves, yellow flowers on short stalks	9—10	6 0	9d.
rigidus (<i>Harpalum rigidum</i>), large golden-yellow flowers with black centre; a fine border plant, and invaluable for cutting	6—8	3	6d.
Miss Mellish , large semi-double brilliant yellow flowers, A.M.	8—10	7 0	6d.

R = Rock Plants.

	Month of Flowering	Average height	Price each
Helianthus rigidus Rev. Wolley-Dod, bright yellow, a fine late-flowering variety	9—11	ft. in. 6 6	6d.
semi-plenus , semi-double rich golden yellow. F.C.C.	8—9	4	6d.
sparsifolia , large deep rich yellow flowers on long stems, very late flowering. A splendid hybrid raised from crossing <i>H. rigidus</i> with <i>H. Californicus</i> , a double variety	9—10	6	1/6
strumosus , small, useful for cutting	7—9	3 6	6d.
6 distinct <i>Helianthus</i> (our selection), 3/6.			
12 in six distinct varieties (our selection), 5/-			
Heliopsis lævis grandiflora (Orange Sunflower), deep orange-yellow very lasting	7—8	4	6d.
scabra Pitcheriana , rich yellow. A.M.	7—8	3 6	9d.
semi-plenus , orange, semi-double	7—9	3 6	9d.
Helleborus atrorubens , purple, very free and pretty	1—3	1	1/6
colchicus , dark purple flowers, handsome dark leaves, with five to seven broad and coarsely-toothed divisions	2—3	1	2/6
guttatus , white flowers spotted and sometimes streaked with purple on the inside ...	2—3	1	1/6
niger (Christmas Rose), the large pure white flowers of this and the following varieties are indispensable for cutting in December and January. To have the blooms pure white and clean, a hand-light should be placed over the plants as they come into bloom	12—2	8	9d. 1/6
angustifolius , very fine	10—12	1	1/6-3/6
major , strong plants for forcing	11—1	9	1/6-2/-
maximus , large rose tinted flowers	11—1	9	1/6-3/6
Madame Fourcade , distinct and beautiful	12—2	8	2/6
Riverstonii , robust variety	12—2	9	2/6
orientalis (The Lenten Rose), many fine distinct varieties	1—3	1	1/--3/6
seedlings	1—3	1	9d.
6 Lenten Roses in 6 named varieties (our selection), 6/- & 9/-			
12 Lenten Roses in 12 named varieties (our selection) 9/- and 12/-			
Seedling vars., good strong-flowering plants, very varied in colour, 7/6 per dozen.			
H. Heloniopsis breviscapa , see list of Specialities.			
Hemerocallis aurantiaca major , flowers deep orange-yellow, nearly 5 inches in diameter; the finest in the genus. F.C.C.	6—8	2 6	9d.
disticha , broad foliage, bronzy yellow flowers	6—8	3	6d.
fl. , pl. , large double bronzy yellow flowers. F.C.C.	6—8	2 6	6d.
Dumortieri , bronzy orange, exterior of the flowers of a deeper tint	6—8	2	6d.
Dr. Regel , rich apricot, good quality. A.M.	8	2 6	1/-
Flamid , very early-flowering, orange-coloured flowers	5—6	2	6d.
flava , clear yellow, very fragrant	5—6	2 6	6d.

R=Rock Plants

		Month of Flowering	Average Height	Price each
	Hemerocallis fulva , dark orange shaded crimson, flowers produced in great abundance	6—7	3 ft. in.	6d.
	fol. striata , striped foliage	6—7	3	9d.
	Kwanso fl. pl. , large double bronze-coloured flowers. F.C.C.	7—8	3	6d.
	fol. var. , foliage beautifully variegated. F.C.C.	7—8	3	1/-
	luteola , flowers bright golden-yellow, borne on tall stems. A.M.	7—8	3	1/-
	Middendorffii , deep orange-yellow; useful for cutting. F.C.C.	5—6	1 6	9d.
	minor (<i>graminifolia</i>), soft yellow; a dwarf species with grass-like foliage	7—8	1	9d.
	Thunbergii , rich clear canary-yellow	7—8	3	9d.
	6 distinct Hemerocallis (our selection) 3/-			
R	Hepatica angulosa , beautiful large sky-blue flowers	2—4	6	9d.
	alba } see list of Specialities.			
	rosea }			
R	triloba (<i>Anemone Hepatica</i>), lovely dwarf spring flowers, very pretty when grown in masses and left undisturbed. Succeed best in good rich loam and rather shady situation			
	alba fl. pl. , see list of Specialities.			
R	blue, double-			2/-
R	single			6d.
R	large clumps			1/6, 2/6
R	red, double	3—5	6	6d.
R	large clumps			1/6, 2/6
R	single			9d.
R	white, single			9d.
	6 distinct varieties (our selection) 5/-			
R	Herniaria glabra , prostrate habit, pretty masses of evergreen foliage, valuable as a carpet plant	5—8	1	6d.
	Hesperis matronalis (Sweet Rocket), fragrant spikes of pinkish white flowers	6—7	1 6	6d.
	alba , the white variety, showy for shrubberies			6d.
	plena , the double white variety			9d.
	lilacina plena , one of the oldest and rarest forms of the Old Rocket A.M.	6—7	1 6	1/6
	purpurea plena , double purple, very pretty & distinct			1/-
R	Heuchera brizoides , large spikes of rosy coloured flowers, handsome foliage	7—9	1 9	6d.
R	Edge Hall Hybrid , rose colour, very large	7—9	2	9d.
R	Flambeau , dense spikes of flame-coloured flowers on stout erect branching stems	7—9	2	1/-
R	gracillima , rich crimson, very graceful, one of the best. A.M.	7—9	2	6d.
R	micrantha , flowers in a loose panicle, light and graceful. A.M.	6—7	2	9d.
R	Richardsonii (<i>hispidula</i>), flowers veined with purple, brown foliage	6—7	2 6	6d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Heuchera sanguinea , an extremely pretty dwarf hardy plant, with small roundish leaves, and numerous lovely panicles of bell-like flowers of the most brilliant coral-red; a robust and vigorous grower in almost any border. F.C.C.	6—8	1 9	6d.
R	alba , a white variety, very distinct	6—8	1 9	9d.
R	grandiflora , larger and brighter colour than the type; showy	6—8	1 9	9d.
R	Rosamunde , coral-pink a fine variety	6—7	3	1/-
R	rosea , pretty rose flowers, in habit similar to the type	6—7	1 9	9d.
R	Zabeliana , tall handsome spikes of pink coloured flowers, pale green leaves	6—7	2 6	9d.
R	Hieracium villosum , a charming perennial with silvery glaucous leaves, and bright yellow flowers	6—8	1	6d
	Hollyhocks (<i>Althaea rosea</i>), seedlings from a fine strain of double flowers, beautiful colours very showy in the border	7—9	1	9d.
	selected colours, white, lilac, crimson, sulphur, rose, flesh, cherry, lilac, lake, scarlet, etc.	7—9	1	1/-
	single, mixed colours	7—9	1	9d.
R	Horminum pyrenaicum , bluish purple flowers on short nodding pedicels	5—7	9	9d.
R	album , white flowers, evergreen foliage, very uncommon	6—9	9	1/-
R	Houstonia cærulea , small dense tufts of leaves surmounted by tiny slender stems of pale blue flowers	5—7	5	9d.
R	alba , a pretty white variety	5—7	5	1/-
R	Hutchinsia alpina , a neat plant with shiny leaves and pure white flowers, suitable for the rockery or front row of borders	4—6	4	9d.
R	Hypericum Coris , a miniature species with rich yellow flowers, for a dry position in rockery	5—9	4	9d.
R	empetrifolium , flowers yellow, leaves small, habit neat and dwarf	5—9	1	9d.
R	olympicum , symmetrical bushes covered with large bright yellow flowers	5—8	1	9d.
R	repens (<i>ericoides</i>), a charming species with heath-like leaves on prostrate stems, terminating in racemes of bright yellow flowers	6—9	6	9d.
R	reptans , one of the brightest for the rockery with unusually large golden yellow flowers, prostrate habit, evergreen	6—9	3	6d.
R	Iberis correæfolia , compact heads of large white flowers	5—6	8	6d
R	gibraltarica , large heads of delicate lilac-pink flowers, thrives well in a sunny spot on the rockery. F.C.C.	5	9	9d.
R	Little Gem , white flowers, very free and dense, a fine rock plant	5—6	3	6d.
R	saxatilis , white flowers in numerous small capitate heads on dense evergreen prostrate shoots	4—8	3	1/-
R	semperflorens , an erect shrubby species with dense corymbs of white flowers	4—6	9	6d.
R	sempervirens plena , double white, very free & showy	5	1	9d.
R	Garrexiana , a spreading plant with large umbels of pure white flowers	3—4	9	6d.
R	Snowflake , large heads of pure white flowers, a great improvement on the type	4—7	9	9d.

R=Rock Plants.

	Month of Flowering	Average Height. ft. in.	Price each.
Incarvillea Delavayi , leaves elegantly cut; flowers deep rose, produced in clusters. F.C.C.	6	2 6	9d.
grandiflora , rich intense carmine toned with magenta, yellow throat, flowers larger than <i>I. Delavayi</i> . F.C.C.	6	10	1/-
Olgae , large trumpet-shaped rose-pink flowers, 2 inches long, a very beautiful plant	7-9	3 6	9d.
Inula glandulosa , large deep golden flowers, 3 to 4 ins. across	6-7	1 6	9d.
laciniata , large orange-coloured flowers, petals finely cut	6-8	1 9	9d.
Helenium (Elecampane), a vigorous grower, large leaves, bright yellow flowers on stout stems	6-7	5	9d.
Hookeri , pale yellow, sweet scented flowers, 4 to 5 inches diameter	6-7	2 6	9d.
Oculus-Christii , deep yellow flowers on short stems	6-8	1	1/-
Royleana , deep golden yellow flowers, good shape	8-10	2	1/-
Iris , see page 67			
Isatis glauca , flowers yellow, borne in a large loose panicle; leaves glaucous, very effective	6-7	3 9	9d.
R Jasione perennis , masses of light blue flowers for border or rockery, a desirable plant of strong constitution	7-9	1	9d.
Kniphofia , see <i>Tritoma</i>			
Lathyrus grandiflorus , large crimson pea-shaped flowers pro- duced in pairs; a showy plant for a trellis or for covering old tree stumps, &c.	7-8	5 0	9d.
latifolius , rose-coloured flowers, produced in abundance	7-8	5 0	6d.
albus , the pure white Everlasting Pea, valu- able for cutting	7-8	5 0	9d.
splendens , brilliant rose carmine	7-8	4	1/-
White Pearl , large white flowers pro- duced in profusion	7-9	5 0	1/-
R Lewisia rediviva , see list of specialities			
Liatris graminifolia dubia , bright rose-purple flowers, on long stems. A.M.	7-9	4	1/-
pycnostachya , deep purple flower-spikes a foot in length. F.C.C.	7-9	3 0	9d.
scariosa , large dark purple flowers, a distinct shade	9	2 6	9d.
magnifica , rich crimson purple, an im- provement on the type	9	2 6	1/-
spicata , violet-purple spike, handsome and neat in growth	7-9	1 6	6d.
Lilium , see Bulb Catalogue			
R Linaria alpina , dense tufts of bluish violet and orange flowers	5-10	3	6d.
R rosea , attractive rose-coloured flowers	5-10	3	9d.
R dalmatica (syn. <i>macedonica</i>), golden yellow, orange lip	6-9	2 6	6d.
R pallida , dwarf creeping plant	6-9	3	9d.
R pilosa , bright purple	6-9	3	9d.
R repens alba , heads of white flowers borne on wiry stems forming dense compact bushes	6-9	1	9d.
Lindelofia spectabilis , drooping clusters of deep purplish blue flowers, very showy	5-7	1 3	6d.
R Linnæa borealis , a lovely little trailing plant with slender stems and rose-pink flowers produced in pairs; requires a cool, shady situation	7-9	3	1/-
R Linum alpinum , a dwarf alpine with bright blue flowers on slender stems, only suitable for the rockery	6-8	6	9d.
R arboreum , a charming little evergreen bush, glaucous leaves, numerous corymbs of bright yellow flowers	6-9	1 3	9d.
R flavum , golden yellow flowers in great abundance; succeeds almost anywhere	6-8	1 3	6d.

Lupinus arboreus Snow Queen

R = Rock Plants.

		Month of Flowering	Average Height.	Price each.
R	Linum monogynum , a New Zealand species with large hand- some white flowers	6—7	ft. in. 2	9d.
R	narbonense , bright blue flowers	6—7	2	9d.
R	perenne , a slender, elegant plant with bright blue flowers	7—8	1 3	6d.
R	album , a white form of the preceding, a charming rock or border plant	7—8	1 3	6d.
R	Lithospermum canescens , see list of Novelties			
R	Gastonii , lovely azure-blue flowers, with white eye, borne in clusters	6—9	1	2/-
R	graminifolium , grass-like foliage and masses of rich deep blue flowers. F.C.C.	4—9	9	2/6
R	(Moltkia) petræum (Rock Gromwell) dense cymes of flowers at first pinkish but on opening are rich violet blue, a beautiful rock plant	7—9	9	1/6
R	prostratum , a hardy spreading evergreen, lovely rich deep blue flowers	4—9	9	9d.
R	Heavenly Blue , see list of Specialities			
R	purpureo-cœruleum , dark purple-blue flowers, only suit- able for covering dry banks or large rocks	5—7	1	6d.
R	rosmarinifolium , a deep blue shade, charming bushy plant with Rosemary-like foliage	5	1 6	9d.
R	Zollingeri , see list of Specialities.			
	Lobelia cardinalis Fire Fly , intense scarlet, dark stems and deep green foliage, tinged with reddish-bronze	7—9	2 6	9d.
	Queen Victoria , foliage dark purple, greatly heightening the effect of these splendid plants	7—9	2 3	6d.
	syphilitica , light blue flowers thrives best in a damp, shady situation or near water	7—9	1 6	6d.
	alba , the white variety	7—9	1 9	6d.
	Lobelia cardinalis, L. syphilitica and their varieties require protection in winter.			
R	Lotus corniculatus, fl. pl. , double yellow flowers often tipped with crimson, an effective rock plant	5—9	4	9d.
	Lupinus arboreus , invaluable for rocky banks or slopes. Pea- shaped sweet-scented yellow flowers in profusion	6—9	3	9d.
	Snow Queen , a dense bush, fragrant white flowers. A.M. See illustration, page 34.	6—9	3 6	9d.
	Foxii , dark blue and white. A.M.	5—6	2 6	9d.
	Moerheimii , see list of Specialities.			
	Nootkatensis , large spikes of blue and white flowers	5—8	1 9	9d.
	polyphyllus , numerous elegant flower spikes crowded with blue and purple blossoms; a first- class perennial in any situation	5—6	3 6	6d.
	albus , the white variety	5—6	3 6	6d.
	roseus , soft rose-pink, flowers in profusion. A.M.	5—6	2 6	1/-

Lupins at Wisley.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
	Lupinus Somerset , see list of Specialities.		ft. in.	
R	Lychnis alpina , clusters of bright rose-pink flowers	6—8	4	6d.
	chalcedonica , large dense heads of brilliant scarlet flowers, invaluable for cutting; one of the best border plants	7—8	3	6d.
	fl. pl. , brilliant scarlet, dense corymbose heads, erect stems	7—8	2 3	9d.
	alba pl. , a white variety of the preceding	7—9	2 3	1/-
	dioica rubra fl. pl. , bold heads, fine for massing or cutting	5—9	1 3	6d.
R	flos-cuculi alba plena , a double white variety of the old <i>Ragged Robin</i>	6—7	1 6	9d.
R	grandiflora , see list of Specialities			
R	Haageana , flowers about 2 inches in diameter, of various bright colours from crimson to white	6—7	1	6d.
R	Lagascæ , a lovely alpine with bright rose-red flowers	6—8	3	6d.
R	striata , see list of Specialities			
R	vespertina plena , large double white flowers, very fragrant	6—9	2	1/-
R	viscaria , panicles of rose-coloured flowers	6—8	1 3	6d.
R	alba grandiflora , a large-flowered white variety, a great advance on other white forms	6—8	1 3	6d.
R	splendens plena , large and double, a beautiful bright rose	6—8	1 3	6d.
	Lysimachia clethroides , long dense spikes of white flowers	7—9	2 3	6d.
R	Nummularia (Creeping Jenny), bright yellow flowers, excellent for hanging baskets	6—8	1	6d.
R	aurea , a gold-leaved variety of the same	6—8	1	6d.
	verticillata (<i>punctata</i>), long spikes of yellow flowers, very free	7—9	1 9	6d.

R=Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each
	Lythrum roseum superbum , large spikes of clear rose-coloured flowers; an effective border plant	7—9	3 6	6d.
	Rose Queen , fine rosy spikes	7—8	3 6	9d.
	virgatum , rosy-purple, an elegant and charming species	7—9	3	9d.
	Malva moschata , masses of lovely rose-pink	6—9	1 6	6d.
	alba , numerous large pure white flowers, excellent for cutting; a good border plant. F.C.C.	7—8	2 6	6d.
R	Meconopsis cambrica (Welsh Poppy), yellow and bronze	5—7	1	6d.
R	plena , clear yellow double flowers, A.M.	6—7	1	1/-
	integrifolia	}	see list of Specialities	
	punicea			
	racemosa			
	sinuata			
	Wallichii (Blue Himalayan Poppy), a stately plant with cut foliage and erect flower stems, along nearly the whole length of which are produced azure-blue pendant flowers 2 to 2½ inches in diameter	6—7	3 9	2/6
R	Megasea (<i>Saxifraga</i>) cordifolia , large heart-shaped leaves on long thick stalks, dense masses of rose-pink flowers	3—4	1	6d.
R	purpurea , flowers brilliant purple: during the winter the foliage is deeply tinged with bronze	4—5	1 3	9d.
R	crassifolia , pendant masses of pale rose-pink flowers slightly tinged with lilac	4—5	1	9d.
R	ligulata , broad obovate leaves, flowers white with a rose margin, very effective	4—5	1	6d.
	ciliata , resembles the type, but has hairs on both leaf surfaces	4—5	2	9d.
R	orbicularis , dark massive foliage, with large heads of rose-coloured flowers	4	1	9d.
R	Stracheyi , light pinkish and lilac flowers on pendant branching spikes; very pretty	5—6	1	1/-
	Mertensia echioides , see list of Specialities			
	lanceolata , drooping pale blue flowers, good habit	5—7	1	1/6
	paniculata , rich violet-blue, a beautiful species	7—9	1 6	1/-
	primuloides , gentian-blue flowers, resembles <i>M. echioides</i> . A.M.	5—7	9	1/6
	sibirica , small bell-shaped flowers in drooping clusters	5—6	1	6d.
	virginica , drooping clusters of purplish-blue flowers	5—6	1 3	9d.
	Michauxia campanuloides , spikes of large whitish flowers with reflexed petals	7—8	4 0	6d.
	Mimulus cardinalis , bright scarlet	6—8	2	9d.
	luteus , bright yellow, spotted with red	6—8	1 6	6d.
R	radicans , creeping with short leafy branches, flowers white with violet spots. F.C.C.	6—7	1	9d.
	Molinia cœrulea fol. striatis , a slender-leaved grass, beautifully striped yellow and green, good for edging and bedding	7—8	1	9d.

R=Rock Plants.

		Month of Flowering	Average Height	Price each.
	Molopospermum cicutarium , an ornamental foliage plant, useful for isolation or grouping	5—6	ft. in. 4 6	9d.
	Monarda didyma (Bergamot), deep red flowers in numerous large terminal whorls; extremely handsome	6—8	2 9	6d.
	Cambridge Scarlet , a much more vivid shade than <i>M. didyma</i>	6—8	2 9	9d.
	fistulosa , whorls of purplish rose-coloured flowers; robust growing	6—8	3 6	6d.
	Montbretia , see Bulb Catalogue.			
	Morina longifolia , long spiny thistle-like leaves, and strong erect spikes of rose-coloured flowers: a most effective plant	6—8	2 6	9d.
R	Morisia hypogæa , small bright yellow flowers above rosettes of deep green leaves	3—7	2	1/-
	Myosotidium nobile , see list of Specialities			
	Myosotis alpestris Victoria , a low cushion of the most lovely azure-blue; val- uable for edging	3/- doz. 15/- 100	6 9 9	
	dissitiflora , bright blue, good for mass- ing	3—6		
	alba , the white variety			
R	rupicola (alpestris), (The true alpine Forget-me-not), dense tufts of foliage covered with brilliant deep blue flowers with yellow eyes. F.C.C.	4—7	4	9d.
	sylvatica (Forget-me-not) 2/- per doz.; 12/6 per 100	3—6	9	
R	Nepeta Glechoma variegata (<i>Glechoma hederacea variegata</i>), a procumbent plant with blue flowers and variegated leaves	5—6	6	6d.
	Mussinii , a beautiful shade of pale lavender, dwarf com- pact habit	5—8	1	6d.
R	Nierembergia rivularis , large open cup-like creamy white flowers, about 2 inches across, bare- ly pushed above its dense foliage. F.C.C.	6—9	3	6d.
	Ænothera fruticosa major , a mass of showy bright yellow blossoms	6—9	1 6	6d.
R	macrocarpa , compact trailing masses of yellow flowers	6—8	8	6d.
R	marginata , a pretty dwarf species with white flowers	6—9	6	1/-
	Pilgrimii , clusters of large yellow flowers; one of the very best	6—8	1	9d.
R	pumila , the smallest species, yellow flowers, very pretty and interesting	6—8	4	9d.
R	riparia , a pretty species with slender branches, golden yellow flowers	6—8	1	9d.
R	speciosa , flowers white, changing to rose, borne on erect shrubby stems; a valuable peren- nial for borders or large rockwork	6—9	1 3	9d.
R	rosea , plant of trailing habit, flowers bright rose-pink. A.M.	6—8	6	9d.
R	taraxacifolia (<i>acaulis</i>), large white flowers, fine trailing plant for the rockery	6—8	8	6d.
	Youngii , clusters of deep yellow flowers	6—9	1 6	6d.
R	Omphalodes verna , a charming little plant, clear blue Forget- me-not-like flowers with white centre	3—4	4	6d.
R	alba , a white-flowered form of the pre- ceding	3—4	4	6d.
R	Ononis rotundifolia , a neat shrubby plant, producing numer- ous rose-pink flowers	5—6	1 3	9d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Onosma alba rosea , see list of Specialities.			
R	tauricum (<i>echioides</i>), pretty drooping clusters of clear yellow sweet-scented blossoms	5—8	10	1/6
	Orchis foliosa , handsome erect spikes of rose-purple flowers; one of the handsomest terrestrial Orchids	5—8	1 9	2/6
	Other varieties of Orchis and Ophrys can be supplied.!			
	Oreocome (<i>Selinum</i>) Candollei , an umbelliferous plant, valuable for its finely cut fern-like foliage	6—7	1 9	9d.
R	Origanum hybridum , the flowers resemble bunches of rose-coloured hops, a pretty rock plant for a dry position	6—8	1	1/-
R	pulchellum , pretty sub-shrubby plant with silvery leaves, rosy purple flowers	6—8	9	1/-
R	Orobis (<i>Lathyrus</i>) aurantiacus , bright orange blossoms	4—5	1 9	9d.
R	canescens (<i>filiformis</i>), blue-purple, very showy	5—7	1	1/6
R	lathyroides , bright blue flowers produced in dense racemes	5—7	1 9	9d.
R	pannonicus varius , see list of Specialities.			
R	vernus , beautiful purple and blue flowers, veined with red; charming border plant	4—5	1	6d.
R	albus plenus , double white flowers, very rare	4—5	1	1/6
	Ostrowskia magnifica . One of the finest hardy perennials. Gigantic campanulate flowers, measuring 5 to 6 inches across the mouth, of a delicate mauve-lilac colour suffused with white, and with deeper veins and reticulations; the stems are strong, with oblong leaves arranged in clusters of fours, and the flowers are either borne singly or in terminal racemes. F.C.C.	7—8	3 6	1/6 & 2/6
R	Ourisia coccinea , slender clusters of bright scarlet blossoms, produced on creeping stems	5—6	9	1/-
	Pæonia , see page 73.			
	Pampas Grass (<i>Gynerium argenteum</i>), see Hardy Ornamental Grasses page 90			
R	Papaver alpinum , flowers varying from white to orange; silvery foliage, for rockeries only	5—8	9	6d.
	bracteatum , large brilliant crimson-scarlet flowers, with a black blotch at the base of each petal	5—6	3	6d.
	Beauty of Livermere , bold flowers of a deep crimson colour	5—6	4	9d.
R	nudicaule (Iceland Poppy), beautiful clear yellow	5—8	1	6d.
R	album , pure white, very elegant	5—8	1	6d.
R	miniatum , brilliant orange-scarlet. F.C.C.	5—8	1	6d.
	orientale , bright orange-scarlet with black blotch, very large and showy	5—7	2 6	6d.
	Blush Queen , delicate blush, very distinct, F.C.C.	5—7	2 6	6d.
	Brilliant , vivid vermilion, blackish centre	5—7	2 6	6d.
	Goliath , see list of Specialities.			
	Lady Roscoe , orange terra-cotta and a satin-like sheen. A.M.	5—7	2 6	9d.
	Little Prince , very dwarf	5—7	2	6d.

R = Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Papaver orientale Marie Studholm , salmon suffused with carmine, of silky texture	5—7	2 6	9d.
	Mrs. Marsh , rich crimson-scarlet, irregular blotch of white on each petal	5—7	2 6	9d.
	Mrs. Perry , flowers medium size, on stout stems, a lovely shade of orange-apricot, a unique colour	5—7	3	1/-
	multiflorum , crimson, distinct	5—7	2 6	6d.
	Oriental King , see list of Specialities.			
	Prince of Orange , orange-scarlet, compact habit	5—7	2 6	6d.
	Princess Victoria Louise , rosy salmon, free bloomer	5—7	2 6	9d.
	Queen Alexandra , bright rosy salmon with conspicuous crimson blotch, very fine and distinct in colour. A.M.	5—7	2 6	1/-
	Royal Scarlet , strong growing	5—7	2 6	6d.
	Salmon Queen , salmon-red	5—7	2	6d.
	Silberblick , see list of Specialities.			
	Silver Queen , white, with a faint blush	5—7	2	6d.
	Parnassia palustris (Grass of Parnassus), large pure white flowers, a splendid plant for the bog garden	5—9	6	9d.
	Pentstemon barbatus , see <i>Chelone barbata</i> , page 17.			
	Cobæa , long pale purple flowers, pencilled with red and suffused with yellow; very fine. A.M.	8—10	2 6	9d.
R	glaber , leaves glabrous, flowers blue, violet or purple	5—7	1 6	6d.
R	heterophyllus , dwarf, lilac-pink flowers, changing to blue, produced in pairs	7—8	1 6	9d.
	lævigatus digitalis , many white flowers, like a Foxglove	8—9	2	9d.
R	Menziesii , violet to rosy blue flowers in marvellous profusion, a most showy border or rock plant	6—9	1	1/-
R	Scouleri , large lilac-blue flowers, evergreen	6—8	1 6	1/-
	Murrayanus , whorls of bright scarlet flowers, broad glaucous foliage	8—10	4	1/-
	ovatus , vigorous growing, ultramarine to deep rose-purple, dense spikes	8—10	3 6	9d.
	pubescens , leaves pubescent, flowers white to dull violet or purple	6—9	2	9d.
R	spectabilis , fine blue-purple flowers over one inch long, very effective	6—8	2	9d.
	Seedlings of Florists' Varieties , page 76.			
R	Phlox amœna , numerous bright rose-pink flowers	5—6	6	6d.
R	fol. var. , see list of Specialities.			
R	canadensis , pale blue flowers. F.C.C.	5—6	1	9d.
R	alba , the white variety	5—6	1	9d.
	Laphamii , clear brilliant blue, large trusses	5—7	1 6	1/-
	ovata , lilac flowers in small crowded heads	5—7	1	6d.
R	procumbens , dwarf and compact habit, clusters of pale purple flowers with violet markings near the centre	5—6	6	6d.

Phlox setacea (subulata)

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Phlox setacea , (<i>subulata</i>), delicate rose, deep crimson eye. See illustration	5—7	3	9d.
R	subulata atro-purpurea , a dwarf carpet plant with dark awl-shaped leaves and purplish-rose flowers	5—6	6	6d.
R	Brightness , bright rose with scarlet eye, very free	4—6	4	1/-
R	compacta , clear rose, dwarf compact habit	4—6	4	9d.
R	frondosa , delicate pink flowers above compact foliage	4—6	4	6d.
R	Nelsonii , charming variety, covered with white flowers	5—6	6	6d.
R	nivalis , very pretty, small pure white flowers	5—6	6	9d.
R	rosea major , large pale rose flowers, crimson eye	5—6	6	9d.
R	Sprite , bright rose, crimson eye	5—6	6	9d.
R	The Bride , white, pink centre, very pretty	5—6	6	9d.
R	stellaria , a very beautiful species with pure white starry flowers 1 inch across	5—6	9	6d.
R	lilacina , flowers of a lilac colour, neat habit	5—6	6	6d.
R	verna , a lovely pink, dark throat	5—6	6	6d.
	Florists' Varieties , page 77.			
R	Phygelius capensis , long branching spikes of brilliant scarlet flowers ; very showy	6—10	2 6	9d.
	Physalis Alkekengi (Winter Cherry), peculiar orange-red fruit, useful for winter decoration	5—6	1 3	6d.
	Bunyardii , see list of Specialities			
	Franchetii , a gigantic species of Bladder Cherry, by far the most ornamental of the genus yet known. Its bright coral-red capsules are about 3 inches in length, varying in colour from light orange to orange-scarlet when mature. F.C.C.	6—7	1 9	6d.

Platycodon grandiflorum Mariesii.

R=Rock Plants.

Picotees, see page 62

Platycodon grandiflorum (*Campanula grandiflora*), deep blue campanulate flowers, 2 to 3 inches across; very showy

album, pearl-white

Mariesii, numerous dark blue flowers on dwarf stout stems, very handsome F.C.C. See illustration above

R Plumbago Larpentæ (*Ceratostigma plumbaginoides*), dense tufts of foliage, covered in autumn with beautiful deep blue flowers which gradually change to violet; a good plant for a warm position on the rockery or in the herbaceous border

Podophyllum Emodii, fruit 2 to 3 inches long, of the most brilliant coral-red colour, exceedingly handsome

peltatum, beautiful wrinkled leaves, small white flowers

R Polemonium cæruleum variegatum, variegated foliage

R confertum, a beautiful shade of deep blue, a fine rock plant. F.C.C.

R mellitum, graceful light green foliage with racemes of white flowers. A.M.

himalayanum, spikes of large clear blue flowers and fern-like foliage; invaluable for any herbaceous border

R	Polemonium reptans , creeping stems, and loose drooping panicles of slate-blue flowers	5—6	1	6d.
	Richardsonii , large sky-blue flowers borne in numerous heads; an excellent decorative plant	5—7	1 6	6d.
	alba , a white variety of the preceding	5—7	1 3	6d.
	Polyanthus , see page 80			
	Polygala Chamæbuxus , } See Hardy Tree and purpurea } Shrub Catalogue			
*	Polygonatum multiflorum (Solomon's Seal), elegant arching stems, with numerous drooping white blossoms; fine for forcing	5—6	2 3	4d. to 9d.
R	Polygonum affine (<i>Brunonis</i>), dense spikes of rosy red flowers, lasting through the autumn	8—10	6	6d.
	amplexicaule , spikes of bright crimson flowers on long graceful stems	8—9	2 6	9d.
	compactum , white flowers, in profusion on stout erect stems	7—10	1 6	9d.
	cuspidatum (<i>Sieboldii</i>), cream-white flowers, in great profusion, handsome dark green foliage; very effective as a single specimen	6—8	6	9d.
	polystachyum , bluish-white flowers in graceful sprays, a fine border plant	7—10	5	9d.
	sachalinense , a grand plant of immense size, producing a striking effect on a moist herbaceous border or on the margin of water	7—9	1	9d.
R	sphærostachyum , spikes of crimson flowers, very showy	7—9	1 3	2/6-3/6
R	vacciniifolium , branching spikes of rose-coloured flowers, dwarf and pretty	9—10	6	9d.
R	Potentilla ambigua , a Himalayan species with dense masses of dark green leaves covered with large yellow flowers, a fine rock plant	6—7	3	1/-
R	atro-sanguinea , Gibson's variety , dazzling single blood-red flowers. A.M.	7—9	9	1/-
R	formosa (<i>nepalensis</i>), pretty pink flowers, a useful border plant	7—9	1	6d.
R	Hopwoodiana , very distinct, buff, shaded with rose F.C.C.	7—9	1 6	9d.
R	Miss Willmott , see list of Specialities			
R	pyrenaica , very showy, deep golden yellow	7	6	9d.
R	rupestris , large white flowers	5—8	6	6d.
R	Tonguei , bright orange or terra-cotta flowers, spotted with crimson, a gem for the rock garden	6—9	6	9d.
	Florists' Varieties , see page 80			
	Primrose, Blue , many shades of blue, from pale lavender to deep violet, seedlings	3—5	9	9d.
	Giant "Evelyn Arkwright," the largest form of our native Primrose known; flowers fully 2½ ins. in diameter	3—5	6	3/6
R	Primula auricula , deep golden yellow flowers	3—5	6	9d.
	Bulleyana , see list of Specialities			
R	capitata , flowers of the deepest purple. F.C.C.	3—5	1	9d.
	Clusiana , large bright crimson heads of flowers	3—5	4	1/-

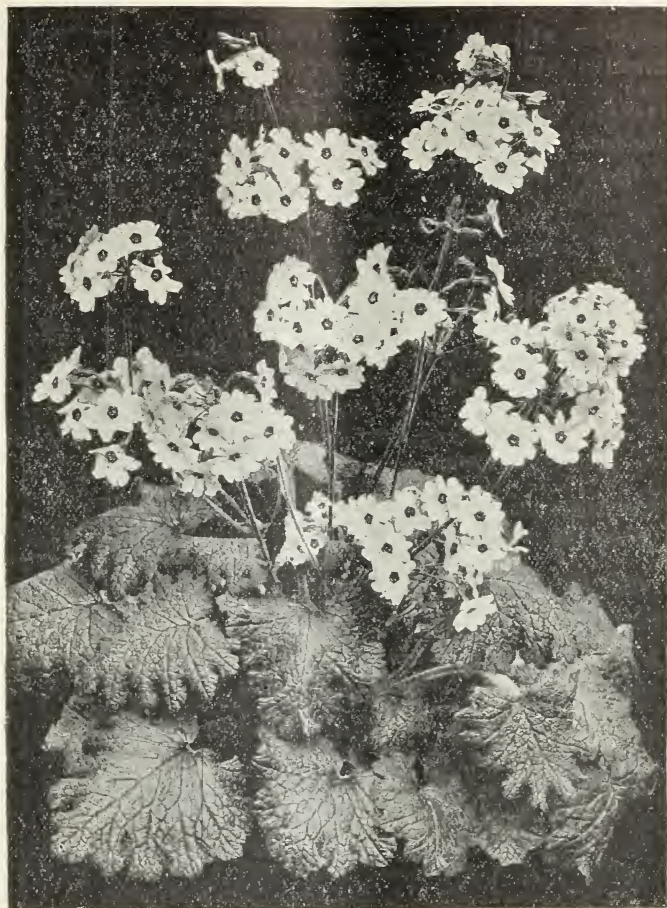

Primula pulverulenta.

R = Rock Plants.

Primula Cockburniana, see list of Specialities

		Month of Flowering	Average Height. ft. in.	Price each.
R	cortusoides , clusters of deep rosy flowers; useful for the rockery	3—5	1	6d.
	There are numerous varieties of this showy species			
R	amœna , rosy purple, large white eye	3—5	9	6d.
R	Sieboldii , large, richly coloured flowers broad handsome foliage. F.C.C.	3—5	9	9d.
R	denticulata , an Himalayan species with globular heads of lilac coloured flowers	5—8	9	6d.
R	alba , a handsome variety with large pure white flowers with yellow centre	5—8	9	9d.
R	Cashmiriana , heads of light purple flowers with yellow centre	5—8	1	9d.
	alba , a white form of the preceding	5—8	1	9d.
R	farinosa , umbels of pale purple, yellow-eyed blossoms, with rosettes of silvery leaves	3—5	4	9d.
	Forbesii , a Chinese species with dainty flowers of soft pink, flowering continuously; not quite hardy but a charming plant for greenhouse culture. F.C.C.	5	6	9d.

Primula Veitchii.

R=Rock Plants.

Primula Forrestii, see list of Specialities

R **frondosa**, a species with rosy lilac flowers, the green foliage is covered with a silvery farina

R **integrifolia**, smooth shiny leaves, bright rose flowers

R **intermedia**, purplish crimson flowers, yellow centre, very fragrant

japonica, whorls of rich crimson blossoms, a fine border plant. F.C.C.

Littoniana, see list of Specialities

luteola, compact heads of rich yellow flowers

R **marginata**, soft violet-pink flowers; pretty grey leaves with a silver margin

me gasæfolia, a rare species with rich rosy purple flowers, requires a moist & shady position. A.M.

R **nivalis** (*viscosa nivea*), snow-white flowers

pulverulenta, see list of Specialities and illustration page 44

rosea grandiflora, bright rose varying to carmine, a beautiful variety requiring a moist shady position

	Unique Improved , see list of Specialities			
	Veitchii , see list of Specialities and illustration page 45			
	vulgaris alba plena (<i>Double Primroses</i>), the old double white	3—5	6	6d.
	carnea plena , double salmon-pink	3—5	6	1/-
	Croussii , profusion of double purplish lilac flowers, with white edges	3—5	6	9d.
	ilacina plena , double lilac	3—5	6	6d.
	lutea plena , double golden yellow	3—5	6	9d.
	purpurea plena , double reddish purple	3—5	6	6d.
	rubra fl.pl. , (<i>Mad. Pompadour</i>) rich velvet crimson flowers, very rare	3—5	6	2/6
	sulphurea plena , double sulphur	3—5	6	6d.
	(<i>Single Primroses</i>), in mixed colours, 3/- dozen, 21/- per 100	5—3	6	
	Wulfeniana , bright pink, very pretty	3—4	3	1/-
R	Prunella grandiflora alba (<i>laciniata</i>), fine spikes of white flowers, a grand border plant	6—8	9	6d.
R	Webbiana , dense spikes of crimson-purple flowers A.M.	6—7	10	6d.
R	Pyrola rotundifolia , spikes of white flowers similar to those of a large Lily of the Valley, requires shade and moisture	6—7	6	9d.
	Pyrethrum uliginosum , clusters of numerous large white flowers, a noble plant for the border and invaluable for cutting	8—10	6	6d.
	Florists' varieties , see page 80			
R	Ramondia pyrenaica , rosettes of pretty wrinkled leaves, from which spring short stems bearing numerous violet-purple flowers with an orange centre; invaluable for fissures on the rockery; peaty soil	5—8	6	9d.
R	alba , a pure white variety of great beauty. F.C.C.	5—8	6	3/6
R	serbica , bell-shaped, lilac with yellow centre. Leaves covered with silky white hairs, very pretty	5—8	6	1/6
R	Nathaliæ , deeper coloured flowers, bright orange anthers	5—8	4	1/6
	Ranunculus aconitifolius plenus (<i>Fair Maids of France</i>), beautiful double snowy-white flowers, in profusion	5—7	1 9	6d.
	acris fl. pl. (<i>Bachelors' Button</i>) clusters of pretty double yellow blossoms	5—6	2	6d.
R	alpestris , a very dwarf alpine with pure white flowers and glossy green leaves	5—8	3	9d.
R	amplexicaulis , large pure white flowers with yellow centres, free and showy	5—7	10	9d.
R	monspeliacus , large yellow blooms, a good rock plant	4—6	1 6	9d.
R	parnassifolius , large pure white flowers with neat orbicular or heart-shaped foliage; a charming little plant	6—7	8	9d.
R	rutæfolius , white, dark yellow centre, foliage cut	5—6	9	1/6
	speciosus , very large double yellow flowers; very showy	5—6	1 3	6d.
	Rheum Alexandræ . See list of Specialities.			
	Collinianum , a handsome foliage plant with large leaves and spikes of crimson flowers	5—6	6	1/-

Rodgersia aesculifolia.

palmatum var. tanghuticum , large, boldly incised foliage	5—6	3 6	1/-
Rhododendron ferrugineum	} See Hardy Tree & Shrub Catalogue.		
album			
Rodgersia aesculifolia , panicles of pinkish-white fragrant flowers, handsome bronze-green foliage see illustration, above	6—7	2 6	1/-
pinnata , deep rosy-crimson flowers	6—7	2 6	2/6
alba , a fine variety with white flowers, effectively used in moist positions, A.M.	6—7	2 6	1/-
podophylla , a handsome foliage plant with palmate bronze-tinted leaves, 20 to 25 inches across. F.C.C.	7—8	1 9	1/-
Romneya Coulteri , large white Poppy-like flowers 4 to 5 inches in diameter, bright golden-yellow anthers, very effective. F.C.C.	6—7	2 6	1/6 to 5/-
Rosmarinus prostratus , see list of Specialities.			

R=Rock Plants.

	Month of Flowering	Average height ft. in.	Price each
Rudbeckia californica , a noble plant, with large golden yellow flowers 4 inches across, dark conical-shaped disc, very vigorous. A.M.	8—9	4 6	6d.
laciniata , large pale yellow flowers 4 to 5 inches in diameter ; very free	7—8	4 6	6d.
fl. pl. (<i>Golden Glow</i>), brilliant golden-yellow. A.M.	7—8	4 6	6d.
maxima , among the largest in the genus, bright yellow ; glaucous foliage	7—9	5 6	6d.
Newmanii , (<i>speciosa</i>) profusion of large orange-yellow composite flowers, 3 to 4 inches in diameter, with a raised maroon centre ; valuable for the border and for cutting purposes ; one of the best	8—10	2 6	6d.
nitida , very showy yellow flowers, one of the latest	8—10	4 6	9d.
purpurea , deep maroon-crimson, raised brown disc, very handsome and showy	7—8	2 9	9d.
subtomentosa , yellow with purple centre, branching habit	7—9	3	6d.
Salvia glutinosa , pale yellow flowers, rare and interesting	7—9	3	9d.
pratensis , rich purple flowers in numerous spikes, graceful habit	6—8	2	6d.
Sclarea , spikes of bluish-white flowers, a handsome species	7—9	3	9d.
Souliei , flowers a delicate shade of blue, dark green handsome foliage	6—7	2	1/—
* Sanguinaria canadensis , pure white Anemone-like flowers, kidney-shaped silvery leaves	5—6	6	6d.
Sanguisorba canadensis , spikes of creamy-like flowers, very free	8—9	4 6	9d.
R Santolina incana , a small silvery shrub, the whole plant covered with dense white down	6—7	1	9d.
R viridis , pale yellow blossoms, a useful rock plant	6—8	1	6d.
R Saponaria ocymoides , a prostrate plant forming dense cushions of neat foliage, and producing a profusion of rose-pink flowers	6—7	6	6d.
alba , a variety of the above covered with myriads of white flowers	6—7	4	9d.
R splendidissima , flowers large, deep rosy crimson ; a charming plant for rock-work, banks, slopes, etc.	6—7	6	9d.
officinalis plena , large corymbs of lilac-pink flowers	7—8	2	6d.
Sarracenia purpurea (Hardy Pitcher Plant), deep blood-red, a curious and most attractive plant for a moist situation	6	9	2/6 & 5/—
Saxifraga , see page 82			
Scabiosa caucasica , large heads of pale lilac flowers, 3 to 4 inches across ; one of the best hardy perennials in cultivation, grows and flowers freely in any ordinary soil	6—8	2 6	9d.
alba , a white-flowered variety of the preceding. A.M.	6—8	2 6	1/—
elata (<i>Cephalaria tartarica</i>), sulphur-yellow, a tall plant suitable for the shrubbery	6—8	5 6	6d.
R graminifolia , dense tufts of narrow silvery white leaves and pale mauve flowers, a splendid rock or border plant	6—9	9	9d.
R Parnassii (<i>Pterocephala</i>), pale purple flowers, grey-green foliage	6—9	6	6d.

R = Rock Plants.

Schizocodon soldanelloides, see list of Specialities.

***Schizostylis coccinea** (Crimson Flag or Kaffir Lily), fine scarlet, early winter-flowering plant (strong in pots)

Scutellaria baicalensis caelestina, see list of Specialities.

	Month of Flowering	Average Height. ft. in.	Price each.
R Sedum acre , bright yellow flowers, fine for rockwork	5—6	3	6d.
R aureum , a yellow-foliaged variety of the type	5—6	3	6d.
R album , a dwarf growing plant with white flowers	6—7	6	6d.
R altissimum , yellow flowers on erect stems, glaucous foliage	6	1	9d.
R amplexicaule , golden-yellow flowers, evergreen foliage	6	6	9d.
R dasyphyllum , pink flowers, silvery-grey foliage	7	1	6d.
R Ewersii , clusters of purplish flowers, silvery-white foliage, very ornamental	7—9	3	6d.
R glaucum (<i>hispanicum</i>), short spreading stems, densely clothed with thick greyish-coloured leaves	6—7	3	6d.
R kamtschaticum , rich yellow flowers, evergreen foliage of a bright colour	8—10	6	6d.
R variegatum , the foliage is distinctly marked with yellow	8—10	6	9d.
R lydium , very small pink flowers, a charming evergreen species	8	3	6d.
R monstrosum , yellow flowers borne on curiously fasciated stems	7—8	9	6d.
R oreganum , pale rose-coloured flowers, bright green leaves, very distinct	7	6	9d.
R pulchellum , rosy-purple flowers, evergreen trailing stems	7—8	4	9d.
R Sieboldii , round heads of rose-pink flowers, prettily tinted foliage	7—8	1	6d.
R splendens variegatum , flowers purplish-lilac, leaves white and green	7—8	1	9d.
R spathulifolium , citron-yellow flowers, glaucous leaves	6	3	6d.
R spectabile , dense broad corymbs of rosy-purple blossoms, borne on stout, erect stems; handsome plant	8—9	1 3	6d.
R rubrum , a crimson form of the preceding	8—9	1 3	9d.
R spurium rubrum , beautiful crimson flowers	7—8	1	6d.
R Telephium , heads of purplish-pink flowers, useful in dry positions	7—9	1	6d.
R ternatum , an evergreen species with white flowers on prostrate stems	7—9	3	9d.

Other species and varieties can also be supplied.

R **Sempervivum**, useful plants for the rockery 6 distinct varieties, 3/-
12 5/-

Senecio clivorum, flower large, golden yellow; leaves bold, heart-shaped, on long petioles; well adapted for the sides of lakes or streams. A.M.
See illustration page 51

sub-crenata, see list of Specialities.

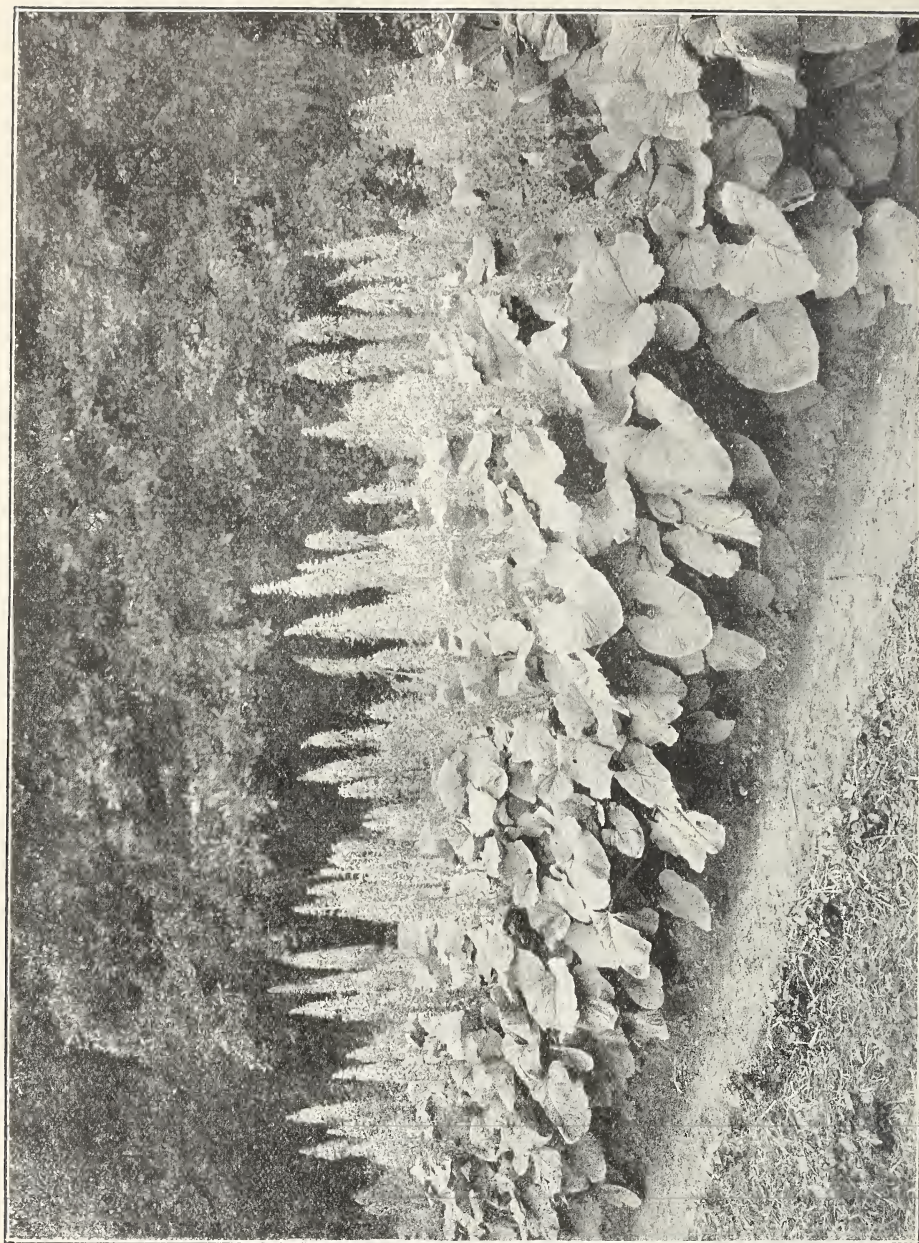

Doria, large heads of golden yellow flowers

Doronicum, large bright yellow flowers, 2 to 3 inches in diameter, borne on stout erect stalks

japonicus, large much-divided leaves, branched stems, orange-yellow flowers

macrophyllum, yellow flowers in loose terminal corymbs, large leaves

An effective border of *Senecio Veitchianus* growing at Coombe Wood.

Senecio clivorum.

R = Rock Plants.

	Month of Flowering	Average Height.	Price each.
		ft. in.	
Senecio pulcher , rose-purple flowers, with golden-yellow centres; an extremely handsome perennial for any border. F.C.C.	9—10	2 6	9d.
tanguticus , panicles of bright yellow flowers, suitable for wild garden. A.M.	9—10	4 6	9d.
Veitchianus , see list of Specialities and illustration page 50.			
Wilsonianus , see list of Specialities.			
Serratula atriplicifolia , globular heads of purple flowers	9—10	5	9d.
R Shortia galacifolia , a most interesting North American plant of great rarity, producing Snowdrop-like flowers on rose-coloured footstalks raised above a deep green shining foliage which in autumn assumes a deep port-wine red. F.C.C.	5—6	6	1/6 & 2/6
R uniflora . See list of Specialities.			
Sidalcea candida , pure white flowers, very pretty and useful for cutting. A.M.	6—8	2	6d.
Listeri , pink, with fringed edges, very pretty	6—8	2 6	9d.
malvæflora , deep pink, useful for cutting	6—8	1 6	9d.
Rosy Gem , rosy pink flowers in elegant spikes	6—8	3 6	6d.

R=Rock Plants.

		Month of Flowering	Average Height	Price each
R	Silene acaulis , a dwarf Alpine, producing in summer a mass of pink flowers, just above the foliage	5—7	ft. 2	6d.
R	alba , pure white flowers, pretty for the rockery	5—8	2	9d.
R	aurea , }			
R	fl. pl. , } see list of Specialities.			
R	alpestris , pure white flowers in dense masses	5—6	4	6d.
R	Asterias grandiflora , globular heads of deep red flowers on erect stems, rare	5—6	1	9d.
R	maritima fl. pl. , a handsome variety, with sea-green spreading leaves, and large double white flowers	5—6	3	6d.
R	rosea , a single variety with rose-coloured flowers	5—6	4	6d.
R	Schafta , large purplish-rose flowers, fine front row plant	7—8	5	6d.
R	virginica , brilliant scarlet or crimson-scarlet, 2 inches in diameter	5—6	1 3	1/6
	Silphium laciniatum , yellow flowers on tall branching stems, handsomely cut foliage	8—9	7	9d.
	perfoliatum , a stately plant with large opposite leaves, yellow flowers, 3 to 4 inches in diameter	7—8	6	9d.
	Sisyrinchium grandiflorum , elegant bell-shaped flowers of the richest purple	3—5	1	9d.
	album , pure white	3—5	1	9d.
R	Soldanella alpina , pale bluish, open pendant flowers, which pierce the snow in order to open ; requires a peaty, sandy soil, and a fairly moist place on the rockery	3—5	5	9d.
R	montana , larger than <i>alpina</i> , and a darker shade	3—5	5	9d.
	Solidago canadensis		4 6	6d.
	multiradiata		4 6	6d.
	rigida	7—9	3 6	9d.
	serotina		4 6	6d.
	Shortii , loose arching heads of bright yellow, by far the most decorative of the whole genus	7—9	6	9d.
	Virgaurea cambrica (Golden Rod), a fine form	5—6	10	6d.
	Spigelia marilandica , tubular flowers, red without, yellow within	7—8	1	1/-
	Spiræa Aruncus , large, gracefully drooping plumes of white flowers	6—7	3 6	9d.
	Kneiffii , elegant foliage and light plume-like heads of white flowers	6—7	2 6	9d.
	plumosa , dwarf, immense white plumes	6—7	2 6	1/-
	* astilboides , a handsome and distinct <i>Spiræa</i> , exceedingly useful for all decorative purposes and for cutting	6—7	2 3	9d.
	Filipendula fl. pl. , fern-like foliage, particularly distinct	6—9	1 3	6d.
	gigantea (<i>camtschatica</i>), large panicles of white flowers, fine palmate foliage. F.C.C.	7—9	7	9d.
	rosea , a very fine pink variety	7—8	8	1/6
	* japonica (<i>Astilbe</i>), panicles of pure white flowers	6—8	2	9d.
	aureo-reticulata , foliage veined with yellow	6—8	1	1/-
	palmata , broad clusters of the most beautiful crimson blossoms displayed well above a handsome palmate foliage. F.C.C.	6—7	2 9	6d.
	alba , the white variety. F.C.C.	6—7	2	6d.
	elegans , soft rose tint	6—7	2 9	6d.
	Ulmaria fl. pl. , snowy-white, double, fragrant	6—7	2 6	6d.
	variegata , creamy-yellow, variegated foliage	6—7	2	6d.

R=Rock Plants.

		Month of Flowering	Average Height	Price each
	Spiræa venusta (<i>lobata</i>), broad feathery heads of rose-carmine blossoms, very effective	6—8	ft. in. 3 3	9d.
	Stachys coccinea , brilliant scarlet-red flowers in terminal spikes, requires sheltered position	7—8	1	9d.
	grandiflora (<i>Betonica grandiflora</i>), spikes of beautiful violet flowers	5	1 6	9d.
	discolor (<i>nivea</i>), pale-sulphur tinted flowers, very large	6	1	1/-
	Statice eximia alba , a beautiful white form	8—9	1	1/6
	superba , large spreading heads of lovely lilac flowers	8—9	1	1/-
	Gmelinii , heads of dark purplish-blue flowers	7—8	1	9d.
R	Gougetiana , small panicles of lavender flowers, above rosettes of evergreen foliage, a charming species from Spain suited for sunny nooks on the rockery	7—8	3	1/-
R	incana nana , in mixed colours, large heads of flowers; a valuable decorative species	7—8	1	9d.
	latifolia , wide-spreading flower-stems, producing a profusion of purplish-blue flowers	7—8	2 3	6d.
	Limonium , large clusters of deep blue blossoms	7—8	1	6d.
R	spathulata , purple and white flowers, very ornamental evergreen leaves	7—9	1	1/-
	Stenanthium robustum , see list of Specialities			
	Stipa pennata , gracefully arching long feathery spikes, particularly valuable for cutting	7	1	6d.
	Stobæa (<i>Berkheya</i>) purpurea , numerous thistle-like bluish-purple flowers, very showy	7—8	2	1/-
	Stokesia cyanea , large showy blue flowers, similar to an Aster	7—9	1 6	9d.
	alba , see list of Specialities			
	præcox , rich lavender-blue flowers with reddish centre, useful for decorative purposes. A.M.	7—10	1 6	1/-
	Symphytum officinale argenteum , silver variegated foliage, drooping blue flowers; a fine border plant	4—6	2	9d.
	aureum , gold variegation	4—6	2	9d.
	bohemicum , racemes of reddish-purple flowers; very handsome	6—8	1 3	9d.
R	Teucrium Chamædrys , whorls of rosy-purple flowers, freely produced	7—9	1	6d.
R	orientale , violet-coloured flowers, greenish foliage; rare	7—8	1	1/-
R	Thalictrum adiantifolium , elegantly divided foliage, resembling a Maiden-hair Fern; very useful for cutting purposes	7—8	6	9d.
	anemonoides , pure white flowers, often an inch in diameter; a neat, dwarf plant	5—6	4	9d.
	aquilegifolium , handsome border plant with Columbine-like foliage and white flowers	6—7	3	6d.
	rubrum , rose-pink flowers	6—7	3	9d.
	Delavayi , rose-coloured drooping flowers, elegant glaucous foliage. A.M.	7—8	2	1/-
	dipterocarpum , see list of Specialities			
	glaucum , large glaucous foliage; fine for cutting	6—7	4	6d.
	Thermopsis caroliniana , bright yellow flowers, very showy	6—8	5	9d.
	montana , yellow pea-shaped flowers on erect stems	6—7	2	9d.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each
R	Thymus Chamædrys languginosus (Woolly-leaved Thyme)	6—7	ft. in. 1	6d.
R	citriodorus argenteus , a silver-variegated form	6—7	1	6d.
R	aureus , a golden-variegated form, very dense and compact. F.C.C.	6—7	1	6d.
R	erectus , clusters of rose-coloured flowers, dark ever-green leaves on twiggy stems	8	1	9d.
R	Serpyllum , rosy-purple flowers, a creeping plant with sweet-scented foliage	6—7	2	6d.
R	album , white wild Thyme	6—7	3	6d.
R	coccineum , red	6—7	3	6d.
R	Tiarella cordifolia (Foam Flower), white, star-shaped flowers, heart-shaped prostrate foliage veined with red	5	9	6d.
	Tradescantia virginica , showy purple-blue flowers ; a useful and very distinct border plant	5—7	1 6	6d.
	alba major , pure white variety ; fine border plant	5—7	1 6	6d.
	rubra , rose-tinted flowers	5—7	1 6	6d.
	Trillium erythrocarpum , white spotted with purple at the base of each segment	5—7	9	9d.
	*grandiflorum , large white flowers, 2 to 3 inches across ; very free, requires a damp shady corner	5—7	9	9d.
	sessile californicum , large purplish leaves and blossoms. F.C.C.	5—7	1 6	9d.
	Tritoma (<i>Kniphofia</i>) caulescens , the most remarkable of the genus, the arrangement and aspect of its leaves resemble a Yucca	6—7	4 6	2/6
	Chloris , a yellow self ; late flowering	8—10	3	1/-
	corallina , very striking, neat habit, brilliant scarlet long and slender bells ; leaves narrow and spreading	8—9	1 9	1/-
	grandis , strong scarlet spikes, valuable for late flowering	8—10	3 3	1/-
	hybrida , seedlings of choice named varieties	7—10	4 6	9d.
	John Benary , scarlet spikes of long tubular flowers	8—9	4	1/6
	Lachesis , flower spikes deep yellow	9—10	3	1/-
	Lemon Queen , a distinct and beautiful shade of lemon-yellow	8—10	3	1/6
	Lord Roberts , see list of Specialities.			
	Macowanii , flower segments recurved, orange-red tinged with pale yellow on the lower side. F.C.C.	7—9	1 9	1/-
	nobilis , magnificent orange-red flowers	8—10	6 6	1/-
	Pfitzeri , orange-red, resembling <i>T. Macowanii</i> , but darker	8—10	3 6	1/6
	rufa , yellow and orange, a charming species	7—10	2 6	1/-
	Saundersii , clear and brilliant in colour, heads of flower often 18 inches in length	7—9	4 6	1/-
	Triumph , bold spike of rich orange-yellow flowers. A.M.	8—9	4 6	2/6
	Tuckii , deep red passing into yellow, summer-flowering species	6	4 6	9d.
	Uvaria grandiflora , the longest and best known species, red and yellow, see illustration page 55. 6/- per doz., 40/- per 100	7—9	3 6	
	Phœbus , a fine yellow self ; very free	7—9	2 6	1/6
	Victor Lemoine , bright red self, very fine	8—10	4 6	1/6

Tritoma Uvaria grandiflora.

COLLECTIONS.

For the convenience of purchasers who prefer to leave the selection to us we have much pleasure in offering liberal Collections of Herbaceous and Alpine Plants containing the most showy and useful varieties.

Many of the choicest kinds for border decoration can be supplied in extra strong clumps to give immediate effect. Names and prices on application.

We have divided the plants into the following 6 sections:

1—ALPINE PLANTS.

2—DWARF PERENNIALS.

3—TALL PERENNIALS.

4—SPRING-FLOWERING PLANTS.

5—SUMMER AND AUTUMN FLOWERING PLANTS.

6—PLANTS FOR CUT FLOWERS.

In each section we shall be pleased to supply as follows:—

12 varieties for 4/- and upwards to 9/-		
25	7/6	18/-
100	25/-	70/-

Customers are respectfully requested to give the name and number of the section they require.

COLLECTIONS FOR MIXED BORDERS

from 25/- to 65/-

When ordering please give size of border, aspect and soil.

HARDY FLORISTS' FLOWERS.

ASTERS (Michaelmas Daisies).

The Perennial Asters form the most delightful feature of the flower garden throughout the autumn months, when other bright-coloured flowers are past. "Their slender-rayed blooms possess all the soft and delicate tints between white, rose, crimson, and purple; with the additional charm of a bright yellow centre." Flowering in great profusion with a neat foliage, these plants provide elegant sprays for cutting and their great range in habit and aspect renders them valuable for planting in many situations. They are quite hardy and require no special culture.

SPECIES AND VARIETIES.

ASTER.

	Average Height in feet	Price each.
acris , satiny mauve, heads of bloom of great width, neat and compact	2 to 3	6d.
ameioides , large deep blue flowers, sweetly scented	1½	9d.
Amellus bessarabicus , large rich deep purplish blue; one of the best. A.M.	2	6d.
Darkness , large dark purplish blue flowers	2	1/-
Framfieldii , deep purple blue	2	6d.
Little Gem , large, purplish blue, neat and compact	1½	9d.
major , rich violet, very handsome; the largest flowered variety	2	9d.
Onward , very deep blue	2	1/-
Perry's Favourite , erect reddish pink	3	9d.
Riverslea , rich purple, dwarf habit	2½	1/-
Stella , long twisted lilac-blue petals	2	9d.
candidus , pure white	3½	9d.
cordifolius , mauve, blooms abundantly, massive foliage	4	9d.
elegans , plume-like masses of small lilac-tinted flowers	4	1/-
major , longer sprays of larger flowers	4	9d.
White Diana , elegant sprays of small white flowers borne in great profusion	4	9d.
diffusus horizontalis , reddish flowers, neat branching habit	2	6d.
pendulus , small white flowers in slender sprays	4 to 5	9d.
ericoides , flowers small but borne in abundance, white with yellow eye, very neat habit	2 to 3	6d.
Decorator , white with yellow disc, free flowering and branching habit	3	1/6
Delight , small white flowers with golden centres, changing to pink, dense branching habit. A.M.	4	9d.
Enchantress , light graceful habit, long sprays of beautiful small blush pink flowers. A.M.	3	9d.
Freedom , a grand form of the type with small white flowers and conspicuous golden centre	3	9d.
Golden Spray , long graceful sprays of small white flowers with golden centre	3	9d.
Hon. Edith Gibbs , long drooping sprays of small, pale lilac flowers, invaluable for cutting. A.M.	3	9d.
grandiflorus , large, deep purple. A.M.	3 to 3½	9d.
lævis , clear blue, yellow centre, effective and distinct	4 to 5	6d.
lindleyanus nanus , pale lilac; dense heads	1½	9d.
linariifolius , lavender blue, very floriferous	2	9d.

ASTER.

	Average Height in feet.	Price each.
longifolius var. formosus , a dense bush with rose-coloured flowers, habit neat and dwarf	2	6d.
multiflorus , small white flowers in large sprays	4	6d.
Novæ-Angliæ , large purplish blue flowers	3 to 4	6d.
Lil Fardel , large rose flowers with silvery sheen	4	9d.
Mrs. J. F. Rayner , bright crimson	4	9d.
præcox , bright purple	4	6d.
pulchellus , large, rich purple flowers, a handsome variety	4	6d.
roseus , delicate rose, very fine	5	6d.
ruber , rose crimson	5	6d.
Ryecroft Pink , rosy pink	5	9d.
Purple , large rich blue-purple flowers, very handsome	4	9d.
W. Bowman , deep violet flowers	4	6d.
paniculatus W. J. Grant , flowers bluish white, forming fine arching sprays	3 to 4	6d.
Porteri , small white flowers, very freely produced	1 to 1½	9d.
puniceus pulcherrimus , much-branched panicles of whitish fringed flowers	5	6d.
salicifolius, Tresserve , bright pink compact habit	1	9d.
Shortii , small azure-blue flowers, leaves cordate	3 to 4	9d.
Thompsonii , pale lavender flowers	2	1/-
Tradescantii , small white flowers in great profusion	5	9d.
trinervis , white, purple and yellow disc	3	9d.
turbinellus , mauve, very free	3	9d.
albus , very light and graceful	3	9d.
undulatus , pale blue, early flowering	3	9d.
vimineus , long slender sprays of pure white flowers	2½ to 3	6d.

GARDEN VARIETIES OF ASTERS.

Mostly *Novi Belgii* forms.

	Average Height in feet.	Price each.
Apollo , lavender-blue	3 to 4	6d.
Archer Hind , soft light blue	4	6d.
Arcturus , dark blue	4	9d.
Aurora , lilac-mauve, large flowers	3	9d.
Autumn Glory , light blue	3 to 4	6d.
Beauty of Colwall , see list of Specialities		
Coombe Fishacre , flesh coloured flowers	3	6d.
densus , light blue	2 to 3	6d.
Drummondii Sappho , lavender-blue	3 to 4	9d.
Elsie Perry , fine rose-pink flowers. A.M.	3	9d.
Esme , large pure white flowers, very fine	2	9d.
Finchley White , one of the best	4	1/-
Flora , soft lavender-blue	3 to 4	9d.
floribundus , dark blue, compact habit	4	6d.
F. W. Burbidge , mauve, large flowers	4	6d.
lanthe , light blue	3	6d.
Maia , rosy lilac, bright yellow centre	4	6d.

GARDEN ASTERS—(continued.)

Special Descriptive List of Border Carnations and Picotees free on application.

Veitch's Delphiniums.

DELPHINIUMS.

It is hardly possible to exaggerate the beauty of a mass of Delphiniums in flower at the back of a Herbaceous border. The colours range literally from the most charming and delicate porcelain blue to rich purple. The flowers are often flushed with a different tint, and many have white or black centres. They flower in June and July, but the season may be prolonged by cutting the central spikes as soon as the flowers are over, when side shoots will be developed. If especially fine spikes are desired, mulching in spring is advisable. With the exception of a few stakes in exposed situations no other assistance is required. The plants are perfectly hardy and succeed in almost any soil or situation.

9/-, 12/-, 18/-, 24/- per dozen, except where otherwise priced.

Agnes , rich sky-blue, slightly flushed with rose, black centre, large flower	2/6
Albert Victor , rose-violet, dark eye, semi-double	
Albion , when fully expanded the flowers are pure white	2/6
Alfred , deep blue, shaded with rose-violet, dark centre, semi-double	
Amethyst , blue, shaded with plum, white eye	
Archidamus , deep violet, black eye, immense spike, large semi-double flowers

alba , beautiful pure white, early in spring	9d.
speciosa , finer and richer coloured lavender than the type	9d.
tenax major , a stronger growing variety than the type, bright lilac flowers	1/6
verna , a dwarf species light blue and orange flowers	1/-
versicolor Fosteri , rich velvety bright purple, reticulated with yellow and white; elegant and pretty	1/-
kermesina , claret-red, darker and richer in colour than <i>versicolor</i>	2/6

For bulbous species, see **Bulb Catalogue** free on application.

Iris Kaempferi (Japanese Iris).

IRIS KÄMPFERI (*Iris lævigata*)

(Japanese Iris).

Japanese Iris fall naturally into two groups—those in which the three outer segments or falls are large and grow downwards, the inner segments or standards being small and upright; and those in which the outer and inner segments are of equal size, giving the flowers a round and symmetrical form, such flowers being termed “duplex.” It is impossible by verbal description to give an adequate idea of the beautiful colours of these flowers. At the base of the segments in most of the varieties is a yellow or orange blotch or eye, contrasting most beautifully with the ground colour of the flower.

Iris Kämpferi grows most successfully as a marsh or half aquatic plant. The soil should be rich, deep and moist, and when the weather is very dry, the plants should be kept well watered. A slight shade from the hot sun is necessary, and lengthens the season of flowering.

(I. Xiphioides)

In many fine varieties, see Bulb Catalogue, free on application.

Iris Germanica.

IRIS GERMANICA

(German Iris).

Although one of the commonest and longest cultivated of garden plants, the German Iris still holds a prominent place on account of the many useful purposes for which it can be effectively employed in garden decoration, and the surprising range of colours into which it has sported. Among these flowers may be found the most varied shades of blue, yellow, white and claret, as well as many beautiful marbled and mottled forms. The plants are of easy cultivation, and are admirably adapted for shrubbery borders, wild gardens, woodland walks, and the margin of lakes, &c. They are valuable also as cut flowers, some of the varieties being very sweet scented.

In the descriptions, **S.** is used to signify the standards or the erect segments: **F.** falls or drooping segments.

Virginie , (s.) soft blue ; (f.) violet-blue with bright orange beard	9d.

Veitch's Beautiful Pæonies.

DOUBLE PÆONIES.

The cultivation of these beautiful plants presents no difficulties.

They flower freely in the months of May and June.

The flowers are on stout footstalks, well displayed above the foliage, bold and striking, often of immense size and perfectly double.

If cut young and the stalks placed in water, the flowers will continue to expand and last in full beauty for several days.

We grow a large collection of Pæonies at our Langley Nursery, see Second Page of Cover.

Vesuvius, crimson shaded yellow
Victor Lemoine, vermilion, yellow
striation
Wm. Rollisson, scarlet shaded orange
Zingari, crimson, yellow edge.

For Species of Potentillas see page 43.

PYRETHRUMS.

The double and single varieties of the Caucasian *Pyrethrum roseum* are among the most beautiful of summer-flowering perennials. Mr. Robinson truly remarks that "they have much to recommend them, they are extremely showy, very hardy, easy to grow and invaluable as cut flowers for several months in summer and autumn, as they last so persistently and are little affected either by sun or rain. They are also invaluable for autumn decorations, for if cut down after flowering in June they flower again three months afterwards." They can be grown in almost any soil, their pretty fern-like foliage rendering them handsome border plants even when out of flower. We strongly recommend that *Pyrethrums* should be planted about the end of April, or early in August.

SINGLE PYRETHRUMS.

6/- and 9/- per dozen, except where otherwise priced.

Ablanus, cerise each.
9d.
Abrupolius, pink
Acelum, clear rose
Albert Victor, crimson, large
flower. A.M. 9d.

Yellow Beauty, yellow self, rayless

And many other varieties.

The ordinary Bedding Violas—blue, purple, yellow and white can be supplied at 12/6 100.

HARDY FERNS.

An outdoor Fernery is particularly interesting and always forms an attraction in every garden. A shady position useless for the cultivation of flowering plants is easily transformed into luxuriant verdure, which when once established requires very little attention to keep in order. Except in exposed positions October is the best time for constructing a fernery. We have enumerated in the following list only those ferns that will thrive well without protection. We shall be pleased to select collections to suit all requirements.

50/- to 75/- per 100.

	Each
Adiantum , creeping rootstocks fronds pinnately divided, slender stalks	
pedatum (American Maidenhair Fern)	1/6
Capillus Veneris (Maidenhair Fern)	1/-

fragilis (Brittle Bladder Fern)	6d
americana	1/-
montana (Mountain Bladder Fern)	1/6
bulbifera	1/-
Dennstaedtia , creeping rhizomes, elegant broad finely divided fronds 1 to 1½ feet long, deciduous	
punctiloba	1/6
Lastrea , bright green deciduous fronds 1 to 2 feet long	
æmula (Hay-scented Buckler Fern)	6d.
cristata	1/6
dilatata (Broad Buckler Fern)	6d.
Felix-Mas (True Male Fern)	6d.
Goldieana	1/6
intermedia	1/6
montana (Mountain Buckler Fern)	6d.
pseudo-Mas (Hard Male Fern)	9d.
cristata (King of Male Ferns)	1/-
Lomaria , creeping rootstocks, tufted fronds about 6 inches long	
alpina	1/6
crenulata	2/6
Onoclea , widely creeping rootstock, deciduous fronds one foot long	
sensibilis (Sensitive Fern)	1/6
Osmunda , densely branched rootstocks, graceful fronds of leathery texture, particularly suitable for damp situation	
cinnamomea	1/6
Claytoniana	1/6

Water Plants.

HARDY FERNS—(continued).

Osmunda, gracilis	Each
regalis (Royal Fern)	1/6
cristata	1/-
Phegopteris , light green fronds of soft texture about 6 inches long	1/6
hexagonoptera	1/6
Polypodium , creeping or tufted rootstocks, evergreen fronds about one foot long	
vulgare (Common Polypody or Adder's Fern)	6d.
cambricum (Welsh Polypody)	1/6
trichomanoides	1/6
Polystichum , tufted evergreen ferns, fronds dark green about two feet long	
achrostichoides	1/6
aculeatum (Hard Shield Fern)	6d.
angulare (Soft Shield Fern)	9d.
Braunii	1/-
lonchitis (Holly Fern)	1/6
munitum (Californian Shield Fern)	1/6
Scolopendrium , short stout rootstocks, tufts of bright green foliage, some varieties have exquisitely crested fronds	
vulgare (Hart's Tongue Fern)	6d.
crispum	1/-
cristulatum	2/6
grandiceps	1/6
Kelwayi	1/-
Struthiopteris , fronds broadly lance-shaped, much divided	
germanica (Ostrich Feather Fern)	1/6
Woodsia , dwarf tufted ferns with pinnate fronds	
alpina (Alpine Woodsia)	1/6
ilvensis (Oblong Woodsia)	1/6
obtusa	1/-
Woodwardia , bright green fronds nine inches long, borne on slender stalks	
angustifolia (Netted Chain Fern)	1/6

WATER PLANTS.

Suitable for Lakes, Ponds, Tubs and Aquariums.

All enumerated in the following list are hardy except those marked (*) which do best with shelter. Those marked (+) are for shallow water, whilst the remainder can be grown in water varying in depths from 1 to 3 feet (April to June is the best time for planting.)

We shall be pleased to give advice in connection with Bog and Water Garden.

12 distinct varieties	}	our selection.	5/-	7/6	& 10/-
24			15/-	21/-	& 25/-

- | | |
|--|------------------|
| † Alisma natans , an effective floating plant with pretty white flowers | 6d. |
| † Plantago , heads of white flowers very graceful | height 4 ft. 6d. |
| † Aponogeton distachyon , this is not only hardy, but wonderfully free blooming for small Aquariums, as well as streams or pools. Its fragrance is most refreshing, reminding one of Hawthorn | 1/6 |
| * Azolla caroliniana , a pretty miniature, floating fern-like growth like moss on the surface of the water turning purple with age | 2/6 per doz. 3d. |
| † Brasenia peltata (Water Shield) small coppery peltate foliage and brownish purple flowers very pretty | 1/6 |

WATER PLANTS—(continued).

†	Butomus umbellatus (The Flowering Rush), bright pink, numerous flowers, in large heads, with rush-like green leaves, height 5 feet	9d.
†	Calla palustris (Water Arum) white flowers, bright green leaves height 9 in.	1/-
†	Echinodorus ranunculoides , a neat plant for shallow water	6d.
	Hottonia palustris (Water Violet) submerged fern-like plant with showy white flowers and bright green foliage	6d.
	Hydrocharis Morsus-ranæ (Frog Bit) a floating plant with pretty white flowers (plants in May)	6d.
*	Limnocharis Humboldtii , distinct in character from any of our native plants, rich golden yellow flowers, beautifully fringed, one of the most exquisite in cultivation	1/-
†	Menyanthes trifoliata (Bog Bean) a free growing plant, pink and white hairy fringed flowers, resembling the flowers of the Horse-Chestnut.	9d.
*	Myriophyllum proserpinacoides (Green Feather) elegant and graceful leaves	9d.
	Nuphar advena (the large Water Lily of America) large yellow flower, red inside. very robust	2/6
	luteum (Common yellow Water Lily)	1/-
†	minor , very small leaves, flowers deep yellow and numerous	1/6
	Kalmianum , light green cordate leaves, small yellow flowers with red carpels	1/6
	Nymphæas (see Special list) free on application.	
†	Orontium aquaticum (Golden Club) golden yellow flowers, in early summer height 18 inches	1/6
†	Peltandra virginica , large arrow-shaped foliage white spadix	1/6
†	Pontederia cordata , free flowering, about 2 ft. high, tall tufts of heart-shaped leaves with spikes of closely set blue flowers	1/6
†	montevidensis , resembling <i>P. cordata</i> , but more vigorous in growth, longer foliage and larger deep blue flowers	3/6
	Potamogeton crispus , green strap like leaves with undulated edges, small red flowers	6d.
	Ranunculus circinatus (Water Crow's foot) small white flowers	6d.
	Lingua , large showy yellow flowers about 2 to 3 feet above the water, narrow glaucous lance-shaped leaves	9d.
	grandiflorus , stronger and flowers much larger than above	1/-
†	Rumex Hydrolapathum (Giant Water Dock) gigantic leaves, very conspicuous	1/-
†	Sagittaria gracilis (Arrow Head) white flowers with brown blotches	9d.
	japonica , large single white flowers	1/-
	fl. pl. , immense double white flowers, one of the most lovely of all the Aquatics, quite hardy, and very easily grown, increasing rapidly in almost any position	2/-
†	sagittifolia (Common Arrow Head) flowers white with dark coloured anthers	6d.
†	variabilis , leaves either entire or sagittate, numerous white flowers	9d.
	Stratiotes aloides (Water Soldier) a pretty floating Aquatic with spiny Pandanus like leaves and pure white flowers	9d.
†	Typha angustifolia (Lesser Reed Mace or Cat's Tail) a tall slender species with brown leaves and chocolate coloured heads	1/-
†	latifolia (Great Reed Mace) well known native plant of fens and rivers, grows 6 to 8 feet high	9d.
†	minima , a dwarf scarce species, 12 to 18 inches	1/6
*	Vallisneria spiralis (Tape Grass) long tape-like floating leaves and white flowers	9d.
†	Veronica Beccabunga , a rapid growing plant with spikes of bluish flowers height 1 ft.	6d.
†	Villarsia nymphæoides , peltate leaves and myriads of yellow flowers	9d.
†	parnassifolia , Parnassia-like leaves and small yellow flowers on branching stems about 2 feet in height. very free flowering	1/6

BOG PLANTS.

Only the most suitable plants for margins of lakes, bogs and damp places, are to be found in the following list, and we shall be pleased to make selections to suit any requirements.

12 varieties our selection 5/-, 7/6 and 10/6.

	Each.
Acorus Calamus (Sweet Flag), long green foliage, yellow aromatic flowers	6d.
gramineus , leathery evergreen leaves, dwarf habit	6d.
fol. var. , green foliage with white margin	1/-
japonica argentea striata , leaves striped with white	1/-
Arundo Donax (The Great Reed), an ornamental Bamboo-like grass, growing 10 to 15 feet high	1/-
fol. var. , fine green foliage striped with white	1/6
mauritanicus , broad foliage with yellow variegation	1/-
Astilbe , see page 12	
Bamboos , see Catalogue of Hardy Trees and Shrubs.	
Caltha palustris ,	} see page 14
fl. pl.	
Cardamine pratensis fl. pl. , see page 16.	
Carex japonica fol. var. , a vigorous growing evergreen grass	6d.
Cyperus longus , long graceful foliage, large heads of brown spikelets	6d.
Cypripedium pubescens ,	} see page 19
spectabile ,	
Dodecatheon , see page 21.	
Epilobiums , see page 23.	
Funkias , see page 25.	
Gentiana Pneumonanthe ,	} see page 26.
Andrewsii ,	
Asclepiadea ,	
Gunnera manicata ,	} see page 27.
scabra	
Hellonias bullata , deep green foliage, rosy lilac flowers in spikes	1/-
Hemerocallis , see page 30.	
Iris Kaempferi , see page 69.	
Pseudacorus , see page 67.	
var. , see page 67.	
Juncus effusus aureus striatus , golden striped Rush	9d.
lacustris , strong growing thick quill-shaped leaves	9d.
spiralis , curiously twisted leaved	9d.
Lythrum roseum superbum , see page 37.	
virgatum , see page 37.	
Lysimachia clethroides , see page 36.	
Monardas , see page 38.	
Myosotis palustris semperflorens (Water Forget-me-not)	6d.
Osmunda regalis , see page 87.	
Parnassia palustris , see page 40.	
Polygonum Sieboldii , heart-shaped leaves and racemes of white flowers	9d.
Primula japonica , see page 45.	
rosea grandiflora , see page 45.	
Rodgersias , see page 47.	
Saxifraga peltata , see page 83.	
Scirpus lacustris Tabernæmontani zebrinus , very elegant, leaves alternately barred with white and green	1/

Senecios, see page 49.**Solidago**, see page 52.**Spigelia marilandica**, see page 52.**Spiræas**, see page 52.**Symplocarpus fœtidus**, curious brown Arum-like flowers

1/6

Trollius, see page 55.**HARDY ORNAMENTAL GRASSES.**

These Perennial Grasses can be utilized with excellent effect as specimens on lawns, or for sub-tropical planting and are particularly graceful when established in the neighbourhood of Water Gardens. We shall be pleased to select, from the following list, collections to suit all requirements.

Apera arundinacea , (Pheasant's Tail Grass) elegant gracefully arching panicles 12 to 18 inches high	1/6
Arrhenatherum bulbosum , fl. var., a neat variegated grass for permanent edgings 1 ft. high	1/-
Arundo conspicua , (Silvery Reed Grass) drooping racemes of silky white flowers borne on stems 6 ft. high	1/6&2/6
Donax , (Great Reed) stems 10 to 12 ft. high clothed with glaucous green lance-shaped leaves	1/6&2/6
variegata , a white variegated form of dwarf habit rarely exceeding 3 ft.	2/6&3/6
macrophylla glauca , foliage larger and more glaucous than <i>A. Donax</i>	2/6
mauritanica fol. variegata , resembles <i>A. Donax</i> except in foliage which is long and narrow	1/-
Carex gallica , fol. var., dwarf yellow variegated foliage	1/-
japonica , fol. var., a vigorous growing variegated Sedge, suitable for edging or pot culture	6d.
Morrowii , a species with fine variegated foliage about 18 inches high	9d.
pendula , graceful plumes borne on stems 5 ft. high, a fine evergreen foliage plant	6d.
riparia fol. var. , graceful variegated foliage about 3 ft. high	6d.
Cyperus longus , (Galingale) a species with long graceful foliage, height 3 feet	6d.
Dactylis glomerata elegantissima , silvery striped leaves, particularly suitable for edging. 5/- per doz.	6d.
aurea , light green foliage with yellow margin, good for edging. 5/- per doz.	6d.
Dulichium spathaceum , strong growing and Reed-like	6d.
Elymus glaucifolius , beautiful blue-grey foliage about 4 ft. high	1/-
Erianthus Ravennæ , tufts of gracefully arching leaves with purplish plumes borne on stems 4 ft. high	1/6
Eriophorum angustifolium , (Cotton Grass) white silky tufts on thin stems 9 inches high, long narrow foliage	6d.
Eulalia japonica , elegant arching leaves on canes 6 ft. high, purplish plumes in summer	1/6
variegata , striped with white and green	1/6&2/6
zebrina , transversely banded with yellow, very distinct	1/6
Festuca glauca , glaucous-blue leaves in dense dwarf tufts	6d.
Glyceria spectabilis , fol. var., handsome foliage with silver and gold stripes, height 1 ft.	1/6
Gymnothrix latifolia gracefully drooping lance shaped leaves on stout canes 5 to 6 ft. high	1/6
Gynerium argenteum , (Pampas Grass) glaucous green arching leaves, forming dense tufts. The feathery plumes are very conspicuous lasting several months	1/6&2/6
carneum , a fine variety with rose-coloured plumes	2/6

HARDY ORNAMENTAL GRASSES—(continued).

	Each.
Holcus lanatus albo variegatus , tufts of soft downy leaves with silvery white variegation 12 inches high	6d.
Miscanthus saccharifera , green foliage 3 to 4 feet high	6d.
Molinia cœrulea variegata , dwarf variegated foliage useful for edging	6d.
Phalaris elegantissima , tufts of bright variegated foliage 1½ feet high	1/-
Stipa pennata , (Feather Grass) very light and graceful for decorative purposes, about 2 ft. high	9d.
gigantea , a taller growing form	1/- & 1/6

PLANTS SUITABLE FOR BEDDING.

Of dwarf habit and in many cases bright variegated foliage, the plants enumerated below are suitable for edging of herbaceous borders or as ground work of carpet bedding.

	Price per 100.
Acœnas , in variety, blue grey foliage	35/-
Achillea tomentosa , masses of yellow flowers	35/-
Ajuga reptans atropurpurea , bronzy red foliage	18/-
variegata , variegated foliage	18/-
Alyssum saxatile citrinum , lemon yellow flowers	30/-
compactum , masses of golden yellow flowers	20/-
variegatum , leaves margined with yellow	40/-
Antennaria tomentosa , grey foliage	20/-
Arabis albida , white flowers	15/-
fl. pl. , double white flowers	18/-
variegata , variegated foliage	18/-
Arenaria balearica , dense tufts of foliage	30/-
caespitosa , small white flowers	30/-
Cerastium arvense compactum , white flowers	20/-
Bierbersteinii , grey foliage	20/-
tomentosum , grey foliage, white flowers	20/-
Dactylis glomerata aurea , yellow variegated grass	20/-
elegantissima , white variegated grass	20/-
Dianthus deltoides , pink spotted flowers	25/-
albus , white flowers	25/-
Gypsophila repens , flowers white or rose	30/-
Herniaria glabra , very bright green foliage	30/-
Lysimachia nummularia , bright yellow flowers	20/-
aurea , yellow leaved variety	35/-
Saxifragas (Mossy) white, rose or crimson	30/-
Sedum acre , bright yellow flowers	20/-
aureum , yellow foliage variety	30/-
album , white flowers	20/-
glaucum , greyish foliage	25/-
lydium , pink flowers	25/-
Thymus citriodorus argenteus , silver variegated leaves	20/-
aureus , golden variegated leaves	20/-
lanuginosus , soft grey foliage	25/-
Serpyllum , in variety, white, red, purple	30/-
Veronica incana , deep blue flowers	30/-
repens , pale blue flowers	30/-
Teucrium dubia , brilliant blue flowers	35/-

LABELS FOR HERBACEOUS PLANTS.

We shall be pleased to supply Stratford Metal Labels as per illustrations.

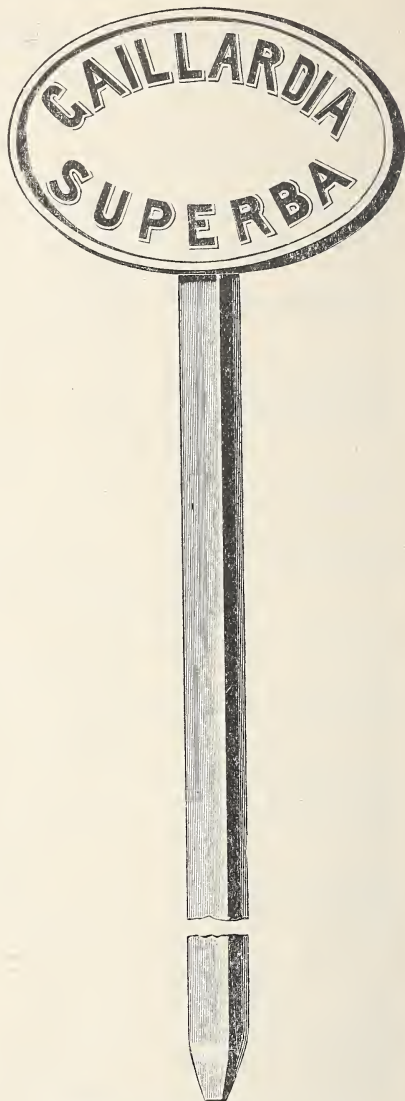

2½d. each.

Herbaceous Label No. 1.

Full Size.

Herbaceous Label No. 2.

12 inch wire standard.

When sending List of Plants for Labels please state whether No. 1 or No. 2 Label is required.

The Labels take some little time to manufacture, but they will be put in hand immediately on receipt of order.
